Agenda Item	Presentation on water supply and infrastructure serving Northeast El Paso and Meta site.
Issue Statement	This presentation was requested to address concerns regarding the infrastructure needed to serve the Meta data center site as well as the facility's projected water consumption.
Background	El Paso Water has worked for decades to develop long-range water plans to serve population growth and support economic development in El Paso. The presentation will include information on the master plans developed in the 2000s for the infrastructure needed to serve Northeast El Paso, including the site that now includes the Meta facility. It also will provide accurate figures on the facility's projected water use and help dispel erroneous figures frequently stated in public commentary.
