HAWK System

How to use the HAWK
High Intensity Activated CrossWalk

PEDESTRIANS		DRIVERS	
SEE THIS	DO THIS	SEE THIS	DO THIS
	PUSH THE BUTTON		DRIVE Always look for people who plan to cross.
	STOP & WAIT for the WALK signal.		SLOW DOWN if you've activated the push button.
	START CROSSING Always watch for cars.		PREPARE TO STOP
	FINISH CROSSING		STOP for pedestrians. (So with the signal RED means STOP)
			STOP FIRST Proceed with caution if no people are present.

Improves pedestrian safety and mobility by using a button activated traffic signal which directs the person walking to wait for the signal to change and traffic stop allowing them to cross safely.
