Strategic Advantages

Change Order results in an increase of safety aircraft operations, reducing unsafe conditions, and cost savings to project area by:

- Reducing the Runway 8R/26L closures by 24 days in future project phases
- Cost Savings of \$99,942.00 to project area due to elimination of rework

Closure to Runway 8R/26L leaves only 1 commercial runway available for aircraft operations and causes back-taxi movements on airfield

- Aircraft back-taxi operations create unsafe aircraft movements and causes delays and congestion
- Back-Taxi on an active runway also results in increased risk of runway incursions due to aircraft traveling against normal traffic flow
- Fewer disruptions to normal runway operations, streamline air traffic management and improve overall airport efficiency
