DISCLAIMER

Our conclusions and recommendations are based on current market conditions and the expected performance of the national, and/or local economy and real estate market. Given that economic conditions can change and real estate markets are cyclical, it is critical to monitor the economy and real estate market continuously, and to revisit key project assumptions periodically to ensure that they are still justified.

The future is difficult to predict, particularly given that the economy and housing markets can be volatile, as well as subject to changing consumer and market psychology. There will usually be differences between projected and actual results because events and circumstances frequently do not occur as expected, and the differences may be material.

El Paso is the largest metro area along the Texas-Mexico border which boasts a best-in-class, business friendly operating environment while also offering a great living experience. The region represents one of the largest manufacturing centers in North America and is recognized as globally competitive. This is largely due to El Paso's unique quality of possessing the largest bilingual and bi-cultural workforce in the Western Hemisphere.

As the sixth-largest city in Texas, El Paso is a top 20% U.S. performing economy and continues to experience positive economic growth by attracting new businesses and helping existing companies to grow. The City's focus is to create new employment opportunities in 21st century industries, maintain a great quality of life, and facilitate business growth at the local and international levels.

Introduction

Tax Increment Reinvestment Zone #10, City of El Paso

The goal of Tax Increment Reinvestment Zone #10 (TIRZ) is to continue funding the construction of needed public infrastructure and to encourage private development that will yield additional tax revenue to local taxing jurisdictions. TIRZ #10 will promote the creation of commercial development, which may include office, retail, hotel, entertainment, and mixed-use development.

The project and financing plan outlines the funding of \$13,443,863 in project costs that will help facilitate commercial development within the Zone. The TIRZ can fund these improvements through the contribution of the City's real property tax increment within the Zone.

Without the implementation of the TIRZ, the specified property would continue to impair the sound growth of the municipality.

Current Conditions

Land Use

The land within the TIRZ is currently vacant.

Method of Relocating Persons to be Displaced

It is not anticipated that any persons will be displaced or need to be relocated as result of implementation.

Zoning

The property within the TIRZ is currently zoned as M-1 Light Industrial Districts. This includes light-intensity industries involving manufacturing, assembling, distribution and warehousing while supporting commercial uses and to preserve a light industrial nature particularly with regard to noise, smoke, odor, dust, vibrations and other noxious conditions. As new development occurs, the current zoning will change to accommodate the development. It is not anticipated that there will be any changes to the master plan, building codes or other municipal ordinances or subdivision rules and regulations of the City at this time.

Current Conditions

Current Ownership Information

There are currently portions of 3 parcels within Tax Incremental Reinvestment Zone #10, which are all have the same owner.

For further details of the parcels included within the TIRZ see Exhibit A.

The 2017 estimated base taxable value is \$7,036,006.

Project Costs & Anticipated Development

Project Costs of the Zone

There are a number of improvements within Tax Increment Reinvestment Zone #10 that will be financed by in part by incremental real property tax generated within the TIRZ.

Project Costs	
Economic Development Grants	\$ 19,249,424
Administrative Costs	\$ 194,439
TOTAL	\$ 19,443,863

The costs illustrated in the table above are estimates and may be revised. Savings from one line item may be applied to a cost increase in another line item.

Additionally, there is potential to have the land developed facilitated through a direct sale agreement between the City and the private entity.

Anticipated Development

The proposed TIRZ #10 development will be commercial use, which may include office, retail, hotel, entertainment, and mixed-use development that will be constructed over the next several years and financed in part by incremental real property tax generated within the TIRZ.

The table provides an overview of the potential development that we believe will occur during the life of the TIRZ along with estimated date of when the incremental revenue will flow into the TIRZ fund.

Chapter 311 of the Texas Tax Code

Sec. 311.002.

"Project costs" include:

- (B) financing costs, including all interest paid to holders of evidences of indebtedness or other obligations issued to pay for project costs and any premium paid over the principal amount of the obligations because of the redemption of the obligations before maturity;
- (C) real property assembly costs;

- (J) the amount of any contributions made by the municipality or county from general revenue for the implementation of the project plan;
- (K) the costs of school buildings, other educational buildings, other educational facilities, or other buildings owned by or on behalf of a school district, community college district, or other political subdivision of this state; and
- (L) payments made at the discretion of the governing body of the municipality or county that the governing body finds necessary or convenient to the creation of the zone or to the implementation of the project plans for the zone.

Financial Feasibility Analysis

Method of Financing

To fund the public improvements outlined on the previous pages, it is anticipated that the City of El Paso will contribute 100% of its real property increment within the Zone.

Debt Service

It is not anticipated at this time that the TIRZ will incur any bonded indebtedness.

Economic Feasibility Study

A taxable value analysis was developed as part of the project and financing plan to determine the economic feasibility of the project. The study examined the expected tax revenue the TIRZ would receive based on the previously outlined developments. A summary overview of the anticipated development square footages, the anticipated sales per square foot and the anticipated taxable value per square foot can be found on the table below.

The following pages show the estimated captured appraised value of the zone during each year of its existence and the net benefits of the zone to each of the local taxing jurisdictions as well as the method of financing and debt service.

Utilizing the information outlined in this feasibility study, we have found that the TIRZ is economically feasible and will provide the City and other taxing jurisdictions with economic benefits that would not occur without its implementation.

DISCLAIMER

Our conclusions and recommendations are based on current market conditions and the expected performance of the national, and/or local economy and real estate market. Given that economic conditions can change and real estate markets are cyclical, it is critical to monitor the economy and real estate market continuously, and to revisit key project assumptions periodically to ensure that they are still justified.

The future is difficult to predict, particularly given that the economy and housing markets can be cyclical, as well as subject to changing consumer and market psychology. There will usually be differences between projected and actual results because events and circumstances frequently do not occur as expected, and the differences may be material.

El Paso is the largest metro area along the Texas-Mexico border which boasts a best-in-class, business friendly operating environment while also offering a great living experience. The region represents one of the largest manufacturing centers in North America and is recognized as globally competitive. This is largely due to El Paso's unique quality of possessing the largest bilingual and bi-cultural workforce in the Western Hemisphere.

As the sixth-largest city in Texas, El Paso is a top 20% U.S. performing economy and continues to experience positive economic growth by attracting new businesses and helping existing companies to grow. The City's focus is to create new employment opportunities in 21st century industries, maintain a great quality of life, and facilitate business growth at the local and international levels.

Introduction

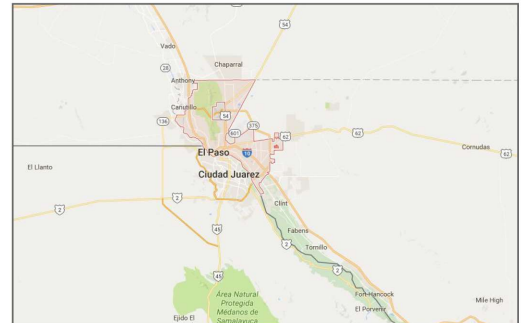

Tax Increment Reinvestment Zone #10, City of El Paso

The goal of Tax Increment Reinvestment Zone #10 (TIRZ) is to continue funding the construction of needed public infrastructure and to encourage private development that will yield additional tax revenue to all local taxing jurisdictions. TIRZ #10 will promote the creation of commercial development, which may include office, retail, hotel, entertainment, and mixed-use development.

The project and financing plan outlines the funding of \$19,443,863 in project costs that will help facilitate commercial development within the Zone. The TIRZ can fund these improvements through the contribution of the City's real property tax increment within the Zone.

Without the implementation of the TIRZ, the specified property would continue to impair the sound growth of the municipality.

Current Conditions

Land Use

The land within the TIRZ is currently vacant.

Method of Relocating Persons to be Displaced

It is not anticipated that any persons will be displaced or need to be relocated as result of implementation.

Zoning

The property within the TIRZ is currently zoned as M-1 Light Industrial Districts. This includes light-intensity industries involving manufacturing, assembling, distribution and warehousing while supporting commercial uses and to preserve a light industrial nature particularly with regard to noise, smoke, odor, dust, vibrations and other noxious conditions. As new development occurs, the current zoning will change to accommodate the development. It is not anticipated that there will be any changes to the master plan, building codes or other municipal ordinances or subdivision rules and regulations of the City at this time.

Current Conditions

Current Ownership Information

There are currently portions of 3 parcels within Tax Increment Reinvestment Zone #10, which are all have the same owner.

For further details of the parcels included within the TIRZ see Exhibit A.

The 2017 estimated base taxable value is \$7,035,005.

Project Costs & Anticipated Development

Project Costs of the Zone

There are a number of improvements within Tax Increment Reinvestment Zone #10 that will be financed by in part by incremental real property tax generated within the TIRZ.

Project Costs	
Economic Development Grants	\$ 19,249,424
Administrative Costs	\$ 194,439
TOTAL	\$ 19,443,863

The costs illustrated in the table above are estimates and may be revised. Savings from one line item may be applied to a cost increase in another line item.

Additionally, there is potential to have the land developed facilitated through a direct sale agreement between the City and the private entity.

Anticipated Development

The proposed TIRZ #10 development will be commercial use, which may include office, retail, hotel, entertainment, and mixed-use development that will be constructed over the next several years and financed in part by incremental real property tax generated within the TIRZ.

The table provides an overview of the potential development that we believe will occur during the life of the TIRZ along with estimated date of when the incremental revenue will flow into the TIRZ fund.

Financial Feasibility Analysis

Method of Financing

To fund the public improvements outlined on the previous pages, it is anticipated that the City El Paso will contribute 100% of its real property increment within the Zone.

Debt Service

It is not anticipated at this time that the TIRZ will incur any bonded indebtedness.

Economic Feasibility Study

A taxable value analysis was developed as part of the project and financing plan to determine the economic feasibility of the project. The study examined the expected tax revenue the TIRZ would receive based on the previously outlined developments. A summary overview of the anticipated development square footages, the anticipated sales per square foot and the anticipated taxable value per square foot can be found on the table below.

The following pages show the estimated captured appraised value of the zone during each year of its existence and the net benefits of the zone to each of the local taxing jurisdictions as well as the method of financing and debt service.

Utilizing the information outlined in this feasibility study, we have found that the TIRZ is economically feasible and will provide the City and other taxing jurisdictions with economic benefits that would not occur without its implementation.
