\*\*18.18.190 – Submission contents.

\*\*\* 19.02.040 Criteria for approval.

### **Contract Management Section**

- For all proposed improvement within the city right-of-way, follow the Design Standards for Construction (DSC) in accordance with the municipal code, and include detailed information.
- For new asphalt areas, verify that proper subgrade preparation is completed and that minimum compaction standards are achieved.
- Incorporate detailed information for all proposed items within the city Right of way limits.
- Please provide the corresponding responses on this form.

### **El Paso Water Engineering**

Do not object to this request.

#### **Water:**

There is an existing 8-inch diameter water main extending along Vin La Roda Drive. This main is available to provide service.

There is an existing 8-inch diameter water main extending along the 20-foot PSB easement located west of the property. This main is available to provide service.

Previous water pressure readings from fire hydrant number #11567, last tested on 12/12/2023, located at 300 Vin La Roda Drive have yielded a static pressure of 96 psi, residual pressure of 46 psi, discharge of 1,609 gallons per minute. The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer, and relief valve, to be set for pressure as desired by the customer. The Lot owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

#### **Sanitary Sewer:**

There is an existing 8-inch diameter sanitary sewer extending along Vin La Roda Drive. This main is available to provide service.

#### **General:**

All easements dedicated for public water facilities are to comply with EPWater-PSB Easement Policy. No building, reservoir, parking stalls, signs, light pole, trees, structure or other improvement, other than asphaltic paving (HMAC), shall be constructed or maintained on the above referenced El Paso Water Utilities - Public Service Board easements without the written consent of EPWater. EPWater easements shall be improved to allow the operation of EPWater maintenance vehicles. EPWater requires access to the proposed water and sewer facilities within the easements 24 hours a day, seven (7) days a week. Easement grantor shall indemnify, defend, and hold harmless the El Paso Water – Public Service Board from and against any and all claims, liability, actions, and damages for bodily injury and property damage to third parties or to the El Paso Water – Public Service Board which may be caused by or arise out of the maintenance and existence of said water and sanitary sewer mains in the easement area.

An application for water and sanitary sewer services should be submitted 6 to 8 weeks prior to the start of construction, to ensure water for construction work. New service applications are available at 1154 Hawkins, 3rd Floor. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWater – PSB Rules and Regulations. The applicant is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

**Texas Gas**

Texas Gas Service currently has a Main on Vin Rambla Dr. fronting the entire length of this new commercial subdivision, Montecillo Unit Eleven Replat I. A Portion of our existing main does appear to be placed in what this plat has dedicated to a 10' utility easement. Once the developer is ready, however, they would need to reach out to our offices to ensure there is no conflict.

**El Paso Electric**

We have an existing 10' wide easement along Vin Rambla Rd/Ct. Below is a copy of the existing easement.
