Buen dia a todos este correo es para notificar el trato del entrenador Sr Macias, que se siente el dueño de la pista de hockey y tiene un maltrato con los niños en las clases y entrenamientos de hockey y la verdad esto debe parar por el bien del deporte para los niños sin más por el momento solicitamos la suspensión de Javier Macias del campo del hockey....

Good day everyone, this email is to report the behavior of coach Mr. Macias, who acts as if he owns the hockey rink and mistreats the children during hockey classes and training sessions. This must stop for the good of the sport and the children. We request the immediate suspension of Javier Macias from the hockey field.

To Whom It May Concern,

My name is Gabriel Mendez, senior goalie at Tobin Park Inline Hockey. For many years I have had issues with Javier Maclas as a player and as a referee. It started with Javier speaking to the park staff so rudely, trying to get staff members fired from there job at Tobin Park. We had a great team of workers when Destinee, Carina and the team that was doing the Hockey League. We have gone through so many staff members and we tried to touch them but it's not the same. At one time someone was throwing away beer cans in the trash can in the rink and the staff asked Eric Torres if he might have known who may have done it, so Eric started asking around and no one could say if they saw anyone doing it. Javier told Eric that I was the person doing it but the bad thing is about that is I don't drink, if you knew me you would know that. If you need to check my story you can ask any of the Pile of Bones players. Javier as a player has said bad things to me on the rink but I am 60 years old and I don't take shit from anyone. I know this is a park league, we don't get paid to play so why verbally abuse another player. I have had

words with Javier on the rink and on the bench. I have had a penalty called on me for shooting the puck to the faceoff circle and not handing the puck to Javier but all the other goalies were doing the same thing. Javier tried to get the kids to play in our 18 and up League but when they told him they couldn't play he did what he wanted. When Esme was working at Tobin, Javier could do what ever he wanted because he had Esme in his back pocket. He got a lot of staff members transferred or fired with her.

Thank you for hearing me out,

Gabriel Mendez

Griselda N - Incident Report 12.13.pdf; Javier Macais - Email Incident 12.13.pdf; Griselda N - Written Incident Report 12.13.pdf; EricTorres_IncidentReport12.13.2025 (1).pdf;

Good morning,

I wanted to send over meeting recap notes from yesterday's meeting at Nations Tobin with Inline Community member, Eric Torres and Inline Hockey Parents, Mr. and Mrs. Serpean, in regards to a verbal altercation and growing concerns about Inline Community member, Javier Macias.

The premise of the meeting was to inform Eric Torres that all Inline Hockey activity is canceled while the city of el paso does an investigation about Saturdays incident and now the voicing concerns from multiple inline hockey parents.

Eric Torres told Sports leadership his statement from Saturdays incident, which he later turned in a written incident report about the situation. Mr. and Mrs. Serpean, were the parents that were in the verbal altercation with Javier Macias on Saturday, 12/13/2025. Mr. Serpean (Marcos) stated that he and his family have known and have a strong friendship with the Macias family since their same-age sons have picked up the sport of hockey during early childhood. In recent months, Mr and Mrs. Serpean have had growing concerns about Javier Macias behavior toward youth players and his own family. Mr. Seapean and Eric Torres, informed sports leadership that Mrs. Macias is scared of her husband, Javier Macias, and fears of what he is capable now that he is going through a divorce and her and their children are not living with Javier Macias. Mrs. Macias is currently working on moving out of the shared house with Javier Macias, with the support of the Serpean family - during this time, Javier Macias has been threatening not only Mrs. Macias but Mr. Serpean and his oldest child, Damian Macias.

Eric Torres inform Sports Leadership that Javier Macias has the tendency of saying Nations Tobin Sport Center is "His", he decides who can skate in the community rink, he self-appoints himself as the "CEO", speaks negatively about city staff and spreads misinformation through his social media outlets that include the inline hockey community at Nations Tobin . Javier Macias has kicked out youth and intimidated them from coming back to the rink, monopolizing open rink time and speaks vulgarly to youth players in multiple occasions. Mr. and Mrs. Serpean gave their verbal statement of what occurred on Saturday 12/13/2025 and voiced their concerns of not wanting more youth to go through what their own son, Marcelo and the "Thunderbirds" team have endured under Javier Macias. They want to ensure the growing youth within the inline sport and the "Sundevils" are aware of Javier Macias facade and do not put more youth in the hands of Javier Macias. Mrs. Serpean stated that she feels he is dangerous and is Capable of violence, with a long criminal record in Ciudad Juarez, Banned from the Rhinos Ice Facility for physically fighting with parents and Domestic violence with his own family. Mrs. Serpean stated that Javier belittles players and has taken the fun and safe environment out of the sport and the center. She

states that the kids just want to skate and enjoy the sport but Jaiver does not let them. The older youth players have began to distant themselves from Javier Macias and plan to pick up a new team under Eric Torres.

Eric Torres stated that Javier Macias is trying to profit from the new and younger players in the sport - he has begun misusing sponsors, charging parents great amounts for merch and tournaments, trying to control all aspects of the adult and youth inline programs at Nations Tobin and monopolizing the rink and not allowing any players who "turned their back on him" to skate at the center. Eric stated that Javier Macias has been diagnosed with some form of bipolar and descried Javier Macias as a narcissist with a short fuse. He stated that he does not agree with his doings and his repeated harassment of players, El Paso Roller Derby, and ongoing email complaints about City staff. In light of recent events, Eric Torres, expressed regret to Sports Leadership of not seeing Javier Macias faults sooner and felt blame for trying to support Javier that has led to these ongoing issues.

Mr. Serpean stated the verbal altercation was a civil conversation on his end which turned into more due to Javiers erratic behavior. Mr. Sepan and the Macias Family had previously agreed that the Serpean family was going to take Damian Macias with them to celebrate Marcelos birthday at a birthday party later that Saturday afternoon. Once practice was over, Marcelo had informed Damian that his parents were waiting outside to take them both with them - during This time, Javier Macias was not in a "live practice" he took his son Damian Macias to the locker room to talk and got upset that Marcelo was telling Damian it was time to leave, Javier proceeded to cuss at Marcelo, threatened to hit Marcelo and shut the Locker room door. Marcelo went to tell his dad about what occurred and Mr. Serpean went to the rink to confront Javier Macias about the threats he made to Marcelo, the 17yr old youth player, Javier was in the rink when Mr. Serpean approached him, Mr. Serpean told Javier to not speak to his child like that, this is when Javier began to yell and demand staff to call police and began telling Mr. Serpean "Get out of my rink, get out of my rink" and told him that he is not allowed to return back to the center. Mr. Serpean stated again to not speak to his child like that again or else and left the building with his wife, son and Damian Macias, who was crying after leaving the locker room with his father. Javier Macias spoke with Nations Tobin staff and later both nations staff, Griselda Navarette, and he issued a report on the situation via email to sports leadership.

Sports Leadership told Eric, Mr. Serpean and Mrs. Serpean that written statements are encouraged to add to the ongoing incident on 12/13/2025 and the rest of their ongoing concerns as the inline community about Javier Macias and his presence in the sport and the center. Sports Leadership requested any police reports, retraining orders made against Javier Macias, and other documentation they felt comfortable sharing with the city to allow leadership to investigate the situation further.

Attached to this email are the collected incident reports from 12/13/2025, please let me know if you need any other information or documentation in regard to this meeting and/or investigation. Thank you!

Best,

Malanie Gardea

To Whom It May Concern,

I am writing to formally express my concerns in support of the Nations Tobin Inline Hockey League. Earlier this week, it was brought to my attention that the league was placed on hold pending an investigation involving Mr. Javier and a parent.

First and foremost, canceling games for the entire league without clear communication to the Hockey Committee represents a significant breakdown in process; we were previously told that we would be involved. In situations such as this, I strongly believe that only the individuals directly involved should have been placed on temporary leave or suspension pending the outcome of the investigation, rather than suspending league operations as a whole.

I am not aware of all details surrounding the incident that occurred during Saturday's practice, only that it involved Mr. Javier and a parent. However, I can objectively speak to Mr. Javier's conduct, character, and history within the Nations Tobin Inline Hockey League.

I am one of the original participants who witnessed this program grow from its earliest days—playing on wooden floors, assembling and disassembling boards—to what it is today: an Olympic-size inline hockey rink. Over that time, the league has maintained a strong, family-oriented culture for more than 35 years.

Since Mr. Javier's involvement, Tobin Park staff—both past and present—can attest to recurring challenges in working with him. This is not the first instance in which league play has been paused or disrupted as a result of his actions, behavior, or allegations involving him. Prior to his involvement, the league had not experienced suspensions of play or removal of staff from the facility due to the conduct of a single participant.

Mr. Javier has been witnessed by multiple players while officiating games using profanity toward players, telling them to "shut the f*** up," and threatening to remove players from games in his capacity as a referee. These incidents were directed toward individuals including Gabe (goalie), myself, Erik T., and others. Additionally, he has demonstrated repeated loss of emotional control, including breaking his hockey stick against a goalpost during a game. His style of play has also included "dirty tactics" and retaliatory actions that place other players in positions where they must defend themselves against unsafe or unsportsmanlike conduct (e.g. swinging sticks at legs, skates, chopping down on sticks, hooking, and pushing from back that is very dangerous).

Most importantly, the consistent and observable pattern is that Mr. Javier has been counterproductive to the league's long-standing culture, cohesion, and overall success. While he has been given multiple opportunities to course-correct and has issued apologies to individuals and the broader hockey group, his behavior has continued without meaningful or sustained improvement.

With that context, I respectfully offer the following recommendations for your consideration:

1. Resume the adult inline hockey league without further delay.
2. Place Mr. Javier on an independent suspension pending the completion of Tobin Park's investigation. Depending on the findings, consider an additional suspension of two to three seasons to allow for accountability, reflection, and stability within the league.
3. If no suspension is imposed, this should be considered a final warning. Based on historical patterns, he should not be permitted to referee, organize leagues, or hold any "leadership or administrative role"—participation should be limited strictly to playing.
4. Reactivate and formally involve the existing Hockey Committee to support the program's success and ensure continuity during staff transitions at Tobin Park.

Thank you for your time and consideration. My hope is that the inline hockey program can be returned to its intended course promptly, without further disruption caused by the actions of a single individual.

Respectfully,

Skylier Blake

Good day Parks and Rec staff,

Someone reach out to me to ask me if I could report incidents that happened with Mr. Macias while I used to go and participate in the Nations Tobin rink.

I believe he started playing around 2017, and as a new player in the area, we usually invite and embrace everyone that shows up; the community is small, so any new players are welcomed. He started participating in the adult league, and we invite him to bring his kid to start skating and playing with the kids, I would bring kids that were playing ice hockey, to also play roller. At the time I was coaching a group of young kids playing ice hockey, and I would work with them playing roller there at Nations Tobin. He started to get "involved" without getting involved, he will drop his kid with the group of little kids, but then he will go and play with the adults, or leave the building to do other things and not go back for his kid until a later time, or sometimes he will leave him unsupervised or alone at the rink.

One time he invited a young man, he was 18 years old, but didn't know how to skate, so Mr. Macias decided to drop him to skate with the little kids, but the young man wanted to participate with the adults, so I told him he could go and skate with them (the age difference between him and the 10 and 11 year olds participating was to big), after a couple of minutes, Mr. Macias showed back with the young man and tried to confront me in an aggressive manner that why did I kick him out of the little rink, which was never the case, the young man, wanted to participate with the adults,

not the little kids, but the aggressive behavior of Mr. Macias, and him inviting him but not wanting to teach him how to play, had him scared to say something. I told the young man he could stay with us, but I could tell he was not comfortable, he didn't return after that incident.

In the next couple of weeks, Mr. Macias started pushing the staff of the center to not allow us to have adults skating with the kids because we didn't have background checks and that was mandatory for coaching and being with kids (the sessions were open sessions and the parents of the kids were there, and as a coach of USA Hockey, I had my background check and several modules for coaching). So the center had to make a couple of rules do to the complaints of Mr. Macias, which I don't know if they were in place or just demanded by him.

I also see him confront the staff at the help desk of Tobin, because soccer players will not go out immediately of the rink, or get upset at them if they were running a couple of minutes late or even call their supervisors if they were not working on what he demanded. He would even go and comment amongst other players in the rink that he was their boss, or that he will have them working on things he needed for the league. He liked to feel like he was the one in charge of Nations Tobin, at least on things related to roller hockey.

In tournaments that he will ask the staff to organize, he will scream or yell at kids because they didn't play as he expected (this was voiced by a parent of a kid that got yelled), he will also mock or make fun of kids if they didn't do well and they were not in his team.

He tried to start a youth league with the kids that were showing up, but decided to do it on his own, and the day they were supposed to start, every parent showed up, but the staff told them that while they were registered, they still didn't have teams or a schedule because nobody provide more information and didn't know that they had set that day to start. Mr. Macias got upset at the staff and scream at them, and got upset at parents that would question him if he knew what he was doing. After the incident, the parents asked for a refund, the league never happened, and they never came back.

He also tried to go and get involved in the ice hockey youth program, but over there, he couldn't threaten anyone, because people was not putting up with him and his demands, they tried to help do accommodations for his kids (he asked if they could play an age group below because he said the other kids were to big compared to his kids size) and they allowed stuff like that, but any other demands, they will not pay attention to his tantrums. He also got into a fist fight that he instigated with one of the youth coaches. After the incident, the coach was not allowed to be on the ice and suspended for being inside the rink for the rest of the season, Mr. Macias went and

claim he had done nothing wrong and he just got a week suspension from being in the rink, because he went and insist a couple of times that he had done nothing wrong, which he did participate in the altercation.

After realizing he was not going to be able to do the same at the ice hockey program, he just focused on being at Nations Tobin, and talk bad about the ice hockey program, and lie to the parents about the ice program.

Before covid, I decided to distance myself and my kids from Nations Tobin because of the actions of Mr. Macias. I know several people that still attend either because I know them since then or they show up at the ice rink and play and also still play hockey. I have heard other incidents that keep happening, and people that just stop showing up to roller because the find out Mr. Macias doesn't like to cooperate with people, is either his way or you don't participate.

I tried to take my kids back a couple of years ago, and he makes sure that only the kids get on the floor and no other adults, so he can say he runs the program, and the kids were not even comfortable with what he was "teaching", so we decided to not go back again.

And on a recent incident, a friend of mine has one of his kids participating in the kids' program and his other kids participating in a soccer team, and Mr. Macias approach the kids and tell them that "soccer sucks". As a coach from any sport, you want kids playing different sports, that prevents injuries and you don't want kids specializing on any sport at an early age and him approaching them like that goes against showing the kids good sportsmanship and behavior.

I could come up with a couple of more incidents that I had against him, but this email is already to long and don't want to bore you with it anymore.

Thank you and best regards

Jorge G. Ortega

Dear Mr. Caballero,

We are writing to address a matter of concern about incidents that have occurred during the inline hockey sessions at Nations Tobin Recreational Center. As parents, we expect a conducive atmosphere for all players that also promotes sportsmanship and team spirit.

Unfortunately, there's been a noticeable amount of negative behavior displayed, by Javier Macias. Disrespectful comments, an emotionally unsafe environment, and lack of teamwork are some of the issues that have been observed. These actions undermine team sports principles and create an unpleasant environment for all players.

As you surely know, any coach participating in the El Paso Park and Recreation has a code of conduct they need to abide. These are just a few of the many unseemly actions that we have witnessed.

<i>Code of Conduct</i>	<i>Improper Conduct</i>
• Coaches provide a physically and emotionally safe environment for practices and competition	Javier Macias would yell and target players with intent to insult and denigrate players. Our son was laughed at after giving opinions and after that did not like to share because he was ridiculed.
• Coaches accept that they do serve as role models and there must be congruency between their actions and words	Javier Macias would belittle and explode verbally towards players. Our son was reluctant to play in out-of-town tournaments if Coach Eric Torres was not present.
• Coaches maintain confidentiality when appropriate and avoid situations that would potentially create a conflict of interest or exploit the athlete.	Javier Macias would embellish and escalate situations to belittle and embarrass players. In a particular situation that happened out of town, Javier Macias escalated a situation where a player took a hockey stick from another team. As a coach, he just had to address the player and the family. The other team had already let him know who the player was, and all that was asked was for the stick to be returned. In my opinion, he intentionally humiliated the player and compromised the family's integrity.
• Coaches place the athlete's needs and interests before their own.	My son needed some bearing for his skates and Javier Macias offered to sell him a "new set" to replace the worn ones. To our knowledge, the bearings were supposed to be brand new. When the bearings were replaced, the wheel on the skates were not smooth and we told our son to ask Javier for help with the situation. Javier's response was confrontational and demeaning towards our son and

	told him that he should already know how to change bearings on his own without the help of his father. He went on to say that his dad put DW-40 and that's why they did not work. As always not taking responsibility for his wrongdoing and underhanded tactics for his own personal gains. None the less a new set of bearing were ordered and replaced.
--	--

While we understand that bad days happen, we believe that a certain level of respect and sportsmanship must always be maintained. We are confident that you will take the necessary action to work through these issues, and as parents who values the future of the team, we can only strive for a better and positive playing experience for the whole team.

Please address these issues collectively, fostering a mutually beneficial environment that encourages growth and success.

Thank you for taking the time to read this letter. We are confident that with your help we can cultivate a supportive, successful, and respectful team atmosphere. Looking forward for our son to continue being a part of the inline hockey program at the Nations Tobin Recreational Center.

Sincerely,

Jorge and Laura López

Good morning Pablo,

I hope you are doing well. I am still awaiting my court date regarding my divorce, as well as the restraining order I have requested from the judge against my husband, Javier Macias.

Below is the open record related to the incident that occurred on 12/13/2025, during which Javier threatened Marco Sapien and Marcelo Sapien. I want to emphasize that this should not be viewed as a minor or isolated matter. The situation is far more serious and should be considered in its full context.

Given the circumstances, the appropriate course of action should have been the opposite—where we were the ones gathering signatures to formally request his removal from the inline program.

Thank you for taking the time to review this matter carefully.

Saludos Cordiales,
Vera Valencia

[External] - Follow-Up Regarding Inline Hockey Rink Closure and Path Forward

From Rolledad News

Date: Wed 1/7/2026 7:03 AM

To: Gardea, Malanie <GardeaM@elpasotexas.gov>; Vargas, Monica <vargasM@elpasotexas.gov>; Gonzales, Mike <GonzalesM@elpasotexas.gov>

Dear City of El Paso Officials,

I am writing to follow up regarding the continued closure of the inline hockey rink. It has now been approximately a month with no clear solution or resolution communicated to the hockey community, and the lack of progress is deeply concerning. I love Hockey just as much as the next person.

By way of background, I own and operate **Rolledad News**, the largest dedicated inline hockey media platform in the world. The platform covers the sport globally at the youth, collegiate, and professional levels. Since moving to El Paso less than a year ago this place has given me home thanks to Eric Torres. I have been actively involved in the local hockey community — assisting with the Thunderbirds Invitational and helping the league secure new uniforms through my industry connections, and even helping with learn to skate programs. I am deeply invested in both this sport and its growth in El Paso.

This situation should not be occurring, nor should it remain unresolved for this length of time. The issue at hand involves specific individuals and personal circumstances and has no relation to the rink itself or the broader hockey community. Allowing an individual dispute to halt all hockey activity unfairly impacts youth players, adult players, families, and community members who simply want a safe and structured place to play.

In addition, there is an ongoing dispute between two individuals over control of social media accounts and online presence related to the program. This has resulted in public back-and-forth and competing accounts, placing the community in the middle of a personal conflict. This reflects poorly on the program and the city, creates confusion for families and players, and should not be happening in El Paso — especially in the context of youth sports.

I have also personally been drawn into this matter through repeated and unwanted communications from one involved party attempting to involve me in the dispute. This behavior is inappropriate and concerning, particularly in the context of youth sports leadership. I am able to provide documentation of this ongoing harassment if needed.

At this point, I would like to formally offer my time and services to volunteer as **Hockey Director for El Paso**. My goal would be to provide structure, accountability, and clear leadership, prevent issues like this from occurring in the future, and ensure that individual conflicts are addressed without disrupting the entire hockey community.

El Paso has tremendous potential for hockey, and the community deserves leadership and solutions that prioritize players and families. I respectfully ask the City to address this matter promptly and consider a leadership structure that allows inline hockey to move forward without further interruption.

I would welcome the opportunity to discuss next steps and potential solutions.

Thank you for your time and consideration. Also, please leave my name out of this as the one part has already harassed enough.

Respectfully,

Robb Woods

Hello Mr. Caballero,

I share this with you because I had attempted to share it with Monica, Melanie, and Mike but got error notices when I sent it out. I think it's important to share with you and your staff. If you would please share it with them in case I got something wrong with their email address. I appreciate your assistance in this and thank you for your time in reviewing this email. Thank you.

To: <gardeam@elpasotexas.gov>, <vargasm@elpasotexas.com>, <gonzalezm@elpasotexas.com>

Hello,

I am very appreciative that you took the time to meet with me and my wife regarding the incident that occurred on Saturday involving Javier Macias. As I stated it is a common event for my son Marcelo to participate in a pick up game that happen on Saturday mornings. Marcelo was going to celebrate his birthday with his friends that day and we had agreed to take Damian Macias, Javier's son, with us after practice. Javier was well aware since he was originally going to drop of Damian at our home but later Damian's mother asked us to please take him after the game. We waited for the boy's to come out from the locker room but Damian was taking longer than expected. Marcelo told us that Javier was talking to him so we gave it another 10 minutes. We then asked Marcelo to go in and get him because we had to leave to prepare for that evening. After about another 15 minutes Marcelo steps out of the building very upset and was telling us that he didn't know what his problem was and that he was sick of it. Marcelo had entered the building and when he got to the rink he noticed Javier was still in there with Damian. Marcelo hung around not wanting to interrupt and was hoping Damian would see him and hurry up. After some minutes he peeking into the rink and told Damian that we had to go. Javier explodes at Marcelo and tells him to fuck off because he's talking to Damian. Marcelo then tells him that we need to leave and Javier slams the door in his face and again tell him to fuck off and leave. Marcelo is very angry at this and coach Eric Torres hears the yelling and peeks out of the locker room and just asks Marcelo to leave. That is when Marcelo comes back out to tell us what happened. As per Damian, Javier angrily tells him that he really wants to slap that boy and Damian stands up for Marcelo and tell him that he will do no such thing and walks away from Javier and comes out crying. My wife receives him with a hug in the parking lot and he bursts into tears. At this point I have just had enough of Javier's behavior and was not going to tolerate

him speaking to my son like that. I went back inside to speak to him. He was in the rink and I called out to him twice but was ignored. A couple of kids and a Dad were playing around in the rink so I stepped in towards Javier. When he saw me step in he immediately skated towards me yelling for me to get off his rink. I told him that I was not going to allow him to speak like that to my son and he kept yelling above me telling to get out of his rink. This frustrated me and I then warned him that if he ever pulled that again with my son I would kick his ass and told him to stay away from Marcelo. Again he kept yelling for me to get out of his rink to which I responded that it's not his and told him to take me out. He then skated off making a scene that he was going to involve the police. He skated towards the front desk and told Griselda to call the police because I attacked him and was making threats. As I was stepping out into the lobby I told him one last time that it better be the last time he talks to my son that way and to stay away from him. When Griselda heard this she realized his act and put down the phone. As I was stepping out of the building he says " cuando quieras y donde quieras puto". I ignored him and left.

Shortly after he begins texting my wife and me that we took Damian without his permission and that he was going to call the police because he was a minor and that was illegal and I we were going to be arrested. All day he sent stupid comments and threats at how he was going to see to it that we will never set foot in his rink and that he would make sure that if I did I would be arrested on site. My wife and I decided to ignore him and block him so we no longer receive texts but as the day progressed he became very aggressive with his threats towards his wife and son. Vera Macias was very scared for the safety of her children and disclosed information that we were not aware of regarding his violent past to include prior arrests for domestic violence, assault, and even arson. We offered our home to them until they find a solution and are out of harms way. To have some kind of record regarding the occurrence we contacted EPPD and made a report which I shared with Monica in our meeting.

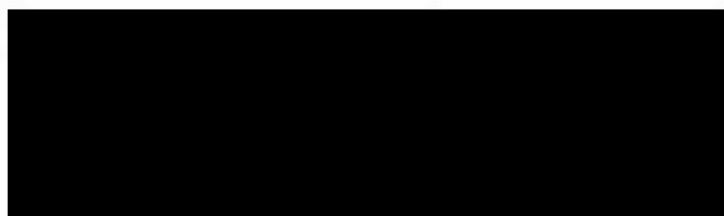

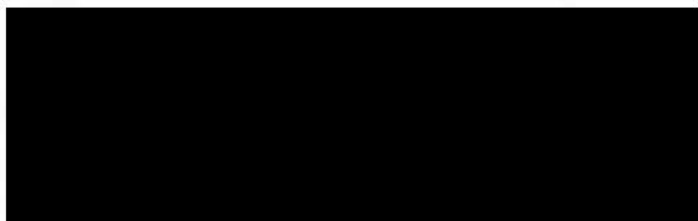

I know Javier since Marcelo was 7 yrs old. Damian and Marcelo are very close almost like brothers and have been competing in the same teams since then. We always knew Javier had issues but kind of tolerated it because of Vera and the kids. He got into a fist fight provoked by him at the Rhino's rink and was banned from the rink by the General Manager. That is when he started with inline hockey. He invited us to try it out and we stuck with it since Marcelo enjoyed it and Damian was a part of it. He introduced Eric Torres to us and he took over as head coach for the boys. Other boys from ice joined us and the goal was to create a team and awareness to kids in El Paso to try inline hockey. The boys quickly bonded with Eric and he has been really great for the boys. They have participated in very important and competitive events and have shined thanks to Eric. Javier was always in the background causing problems. He has had an issue with each one of the boys in one way or the other. His game is psychological and he humiliates the boys and belittles them. This has been a couple of years and the boys are now growing up and tired of this. They are beginning to defend themselves and Javier becomes aggressive with them and cusses them out. Javier made some derogatory comments to Dreese our goal tender and Elma his mother was very upset at this and pulled him from the program. Later Javier kicked off Noel Rivera from the team because of another occurrence at the rink while coaching the youth team. Again getting aggressive by verbally insulting Noel and kicking him off his rink. Soon after Marvin River Noel's brother quit the team. My son seeing all this became disillusioned about hockey and decided to quit participating competitively and began to play tennis to which Javier would humiliate him during pick up games calling him a faggot and that tennis was for gays. Pretty much the same behavior he showed towards Emilio Lopez another team member for participating in his school's marching band and for decide to join the football team.

There are so many thing and details I/we can provide to demonstrate that Javier has no business coaching or being around kids. He does it for all the wrong reasons and is now doing it for profit. He is

nickel and diming the youth program parents by making them buy hoodies, patches, stickers, water bottles, joining silly tournaments he creates between them and charging a fee. He is also holding clinics at the rink and charging entry fees. He told Eric that he was the CEO of the Thunderbirds and Eric stepped back and told him to take the name and do what he pleases. He is currently charging boys from other parts of the country and out of the country to play for the Thunderbirds when none of the original boys are a part of it and neither is Coach Eric.

None of the original parents feels comfortable going to the rink if he is still there and it's a shame because all the boys just want to play, but without Javier. He is dangerous and selfish and poses a threat to the kids. He has shown a very different side of him which we never knew and I truly think he is capable of anything. Especially with the threats and comments he has made to his own son and wife.

I ask that you please truly consider having him permanently removed from the program and any activities involving children. Thanks again for your time and if you need any further clarification from me or need me to go in again in person to provide any additional information I would do so gladly.

Mr Caballero,

Absolutely, I understand the reason behind it. Thank you for your support and you'll receive a couple emails as well from the adults of the league. Thank you!

>> Good evening Mr Caballero,

>> Hope you're doing well. Well I'm sure you know the reason of my email. I just want you to know that I have all the parents plus adult players on the same page and they are going to be writing emails to you concerning all these issues. Thank you for your time and I apologize for you having to deal with all this. I do have a question though. A lot of the adults for the adult Hockey have been calling me and texting me that why would this matter affect the adult hockey league on Tuesdays and Thursdays. A lot of them are on board on writing emails stating the issues they've had with Javier but they do feel like this shouldn't affect the league games that are on Tuesdays and Thursdays for the adults. Is there anyway the adults can continue to play? Thank you for your time please let me know.

Dear El Paso Parks and Recreation Staff,

I am writing to formally raise serious concerns regarding the conduct of Javier Macias, who is involved in both the adult and youth hockey programs.

There have been multiple instances of misuse of authority, unauthorized schedule changes, and personal matters being brought into the rink environment. His conduct toward staff, players, and other adults has been consistently disrespectful, contributing to an overall toxic atmosphere within the hockey community. In addition, he has engaged in taunting, harassment, and insulting behavior toward other players in the league, which has further escalated tensions and undermined the spirit of sportsmanship expected in these programs. These actions have recently disrupted scheduled adult league games due to personal issues that should be handled outside the rink, while also negatively impacting youth hockey through unfair treatment of players and harm to their development and enjoyment.

Additionally, there are ongoing concerns regarding his attempts to exert control over league operations and open hockey despite not holding an official leadership role. There is also a known history of violent behavior, including a prior ban from ice hockey following a physical altercation with another player.

I respectfully request that Parks and Recreation review this matter promptly to ensure a safe, professional, and respectful environment for all participants.

Thank you for your time and attention. I am confident that, with your involvement, the integrity and enjoyment of both adult and youth hockey programs can be restored.

Sincerely,
Robert Robles

Good afternoon,

I was informed today that hockey at Tobin was paused for several incidents that have happened with Javier Macias.

And I would like to put my part into this situation. As I have also stopped playing hockey at Tobin because of an incident with him.

Nothing serious, but his attitude makes it seem like he's the owner of the rink. He was very disrespectful to me when I asked him if there was a way to get registered one day after the due date.

Due to his disrespectful and pedantic attitude I am adding one more signature to the formal complaints towards this individual.

He always has an attitude like if he was superior to everyone else there at the rink and he is very problematic and sometimes even violent. And he's always finding ways to not being accountable for his actions.

I greatly support the suggestions/petitions to ban him completely from any hockey rink in the city of El Paso, including the ice rink, because it's always the same situation with him there in the ice.

Best regards,

Mauricio Escobar

Dear Pablo,

The screenshot of the email I previously sent requesting an urgent restraining order should be sufficient proof that his threats are ongoing and have not stopped. These communications demonstrate a clear pattern of intimidation and escalating behavior.

At this point, I am deeply concerned that no further proof will ever be considered "enough" unless something serious happens. His threats extend not only toward me and my children, but also toward you, your staff, and the safety of everyone at Nations Tobin. This situation requires immediate action to prevent further harm.

We have repeatedly raised these concerns, and if anything else were to occur at the rink, all prior communications and warnings would clearly show that this risk was known and ignored. That is not a position anyone should be placed in.

I am asking you to take decisive action now and permanently ban him from Nations Tobin. This is an opportunity to ensure the safety of your facility, your staff, and the families involved, and to prevent further escalation.

For me and my children, this is the beginning of a long and difficult journey away from an abusive and threatening environment. Hockey and the sense of power he derives from it have been used as tools of control, and removing access to that space is a necessary step to protect us and others.

Please help us ensure that no further incidents occur. We need to know that our safety concerns are being taken seriously.

Thank you for your immediate attention to this matter.

P.S. The time that should be spent resting is instead being used to document threats, send emails, and create records for safety purposes. Unlike him, I do not have the freedom to spend my time sending messages or making threats. I am caring for my children, ensuring they attend school, and trying to remain focused on my work so I can maintain economic stability for them. This ongoing situation is taking a significant toll and further underscores the urgency of immediate action.

Sincerely,

Vera Macias

Good afternoon Pablo,
Hope you're doing well sir. Well Pablo, I first want to thank you for everything you have done to help out and make sure hockey continues here in El Paso. It is appreciated. I know it's a small community but we are appreciated that it continues especially for the youth so it can continue to

grow. Pablo reason I am emailing you once more and sorry to bother you on this windy day, but there are some things happening with Javier that quite frankly are just considered harassment. Now it is on social media, but he has also emailed Marco Sapien (after the suspension on them). I will attach the email that Javier first emailed to Marco and Marco's response. Now I did tell Marco not to respond but when you insult the man and his family (from grandchild to oldest son) I think as a parent anyone would respond to protect his family. Also I know that posting on social media is their own personal thing and there isn't anything you can do about it, but he does talk about the Tobin staff, yourself and me as well. I would simply like to show you it because I feel like this could possibly lead to having him removed from Tobin or any rec center permanently? I am just wondering. Thank you again for your help and I'm sorry this continues with this man. Please let me know if there is anything I need to do. Thank you and have a rest of a good day.

<image002.png>

Also here is the screen shot of what Javier posted online talking about everyone
