#### DESCRIPTION: NEIGHBORHOOD IMPROVEMENT PROGRAM POLICY

#### SECTION I. PROGRAM PURPOSE

The City of El Paso's Neighborhood Improvement Program (NIP) provides the opportunity for Recognized Neighborhood and Civic Associations to request small-scale, permanent physical improvement projects to enhance the quality of life in their neighborhoods.

#### SECTION II. PROGRAM POLICY

The City of El Paso shall conduct the Neighborhood Improvement Program under the following directives:

- 1. As funds for the Neighborhood Improvement Program become available, funds shall be allocated equally between Districts and any unused funds will roll over within the District. Funds may be exhausted in one round, or multiple rounds depending on the total allocated amount.
- Only Neighborhood and Civic Associations recognized and registered with the City of El Paso or in the process of registration under Ordinance 017744, may apply. Neighborhood Associations in the process of registering must complete registration and be an approved association prior to the recommendation of projects to City Council.
- 3. Eligible projects shall be permanent physical improvements located on City-owned land that improve or enhance public spaces within, or in close proximity to, Association boundaries. Projects should have a ten (10) year expected life span.
- Eligible projects must have documented evidence of support from the residents in the neighborhood.
   Documented support needs to be demonstrated by households immediately adjacent to the proposed project location.
- Neighborhood Improvement Program funds may supplement existing projects but are not intended to supplant allocated funding from other sources.
- 6. Project requests that have additional maintenance costs may be considered ineligible
- 7. The project selection process includes a recommendation from staff to the City Council for approval, and will be conducted in a manner providing full and open competition between eligible applicants. Staff will make every attempt to update NIP applicants on the status of their application.
- 8. The scoring criteria for evaluating projects and applications will be reviewed and approved by City Council using an approved score card evaluation (Exhibit B).
- 9. If any funds remain in a District's allocation when staff recommendations have been finalized, Council Representatives & Staff may add to any vetted, proposed project within their districts, components that are consistent with the goals of the original application, as submitted by an Association, and are feasible within the funds available. New project proposals will not be accepted.
- 10. City staff will provide Council with a detailed accounting of all NIP expenditures, including those charges for design, project and construction management, contract compliance and procurement upon request or at the conclusion of an awarded round.
- 11. Projects cannot be split between districts, therefore, if a proposed project is located in more than one

# Community + Human Development

- district, and the boundary of the Neighborhood Association also includes those districts, the Association must indicate in their application, the district in which they intend to compete for funding.
- 12. When funds are available and project rounds are announced, a NIP Project Catalog will be made available for Neighborhood Associations. Project requests outside of the catalog require additional vetting and may not be considered eligible.
