

June 18, 2025

This happened on June 18, 2025 at
Jessie Moreno Senior Center. The
Center was given ~~more~~ activities to do.
I was sitting doing my project,
when Irene pushed her Right
arm, next to me (left side) & wanted
to get some items I was working
on; she did not even ask if she
could get the items, as ~~can~~^{am} I using
them. Nothing, she just pushed her
right arm, almost hitting my left
~~eye~~ eye, & striking my left side
where I had a Mastectomy! I
immediately said "No, I'm still
using the items, & you didn't even
ask if you ~~can~~ could get them."
As she took her right arm back, she
did hit my left side. She just turned
& left. I want to put a complaint on
her for acting that way!
