**El Paso Water**

EPWater-PSB objects to this request.

The Owner/Developer of Montecillo Units 7 and 8 has entered into a Development Agreement with the El Paso Water – Public Service Board (EPWater-PSB) to construct 8-inch diameter water main and 8-inch diameter sanitary sewer main that will provide water and sewer service to this property. The Developer’s utility contractor is currently

installing the required water and sanitary sewer mains which can be extended to provide service once EPWater-PSB issues a Letter of Final Acceptance of the facilities.

**Water:**

There is an existing 8-inch diameter water main that extends along the north side of Castellano Drive. This water main is available for service.

Previous water pressure readings from fire hydrant # 11590 located on the southeast corner of Festival drive and Castellano Drive, yielded a static pressure of 100 psi, a residual pressure of 40 psi and a discharge of 1,126 gallons per minute. The owner should, for his own protection and at his own expense, install at the discharge side of each water meter a pressure regulator, strainer and relief valve, to be set for pressure as desired by the customer. The Lot owner shall be responsible for the operation and maintenance of the above-described water pressure regulating device.

**Sewer:**

There is an existing 8-inch diameter sanitary sewer main that extends along the north side of Castellano Drive. This sanitary sewer main is available for service.

**General:**

EPWater requires a new service application to provide additional services to the property. New service applications are available at 1154 Hawkins, 3rd floor and should be made 6 to 8 weeks in advance of construction to ensure water for construction work. A site plan, utility plan, grading and drainage plans, landscaping plan, the legal description of the property and a certificate-of-compliance are required at the time of application. Service will be provided in accordance with the current EPWater Rules and Regulations. The applicant is responsible for the costs of any necessary on-site and off-site extensions, relocations or adjustments of water and sanitary sewer lines and appurtenances.

**Stormwater**

Castellano Dr., Vin Aragon St., and Vin Madrid St. have been narrowed through this replat; make sure that these streets can still safely direct the storm sewer runoff away from this development.
