CITY OF EL PASO, TEXAS AGENDA ITEM DEPARTMENT HEAD'S SUMMARY FORM

AGENDA DATE: October 24, 2023
PUBLIC HEARING DATE: Not Applicable

CONTACT PERSON(S) NAME AND PHONE NUMBER:

Yvette Hernandez, City Engineer, (915) 212-0065 Samuel Rodriguez, Aviation Director, (915) 212-7301 K. Nicole Cote, Managing Director, (915) 212-1092

DISTRICT(S) AFFECTED: ALL

STRATEGIC GOAL: No. 1. Create an Environment Conducive to Strong, Sustainable, Economic

Development

SUBGOAL: 1.4: Grow the core business of air transportation

SUBJECT:

That the City Manager is authorized to sign a First Amendment to an Agreement for Professional Services ("Agreement") by and between the City of El Paso and Garver, LLC, for a Project known as El Paso International Airport Five Node Intersection Remediation," to amend the Agreement to revise the Scope of Services and to include additional services for design and construction administration. The revisions of this First Amendment require Owner to pay Consultant for additional services in an additional amount of \$414,450.00, thereby extending the contract amount from \$911,150.00 to \$1,325,600.00.

That the City Manager is authorized to establish the funding sources and make any budget transfers and execute any and all documents and contract necessary to carry out the intent of the First Amendment.

BACKGROUND / DISCUSSION:

On March 2, 2021, Garver, LLC was awarded the professional services agreement for the project known as "El Paso International Airport Five Node Intersection Remediation." Garver completed the preliminary and pre-final design phases in July and September 2021, respectively. During the pre-final design phase the FAA communicated to EPIA that they were revising the project funding sequencing and that the Five Node Intersection Remediation project would be constructed in multiple phases(projects) over FY 2024, FY 2025 and FY2026. Follow up discussions with Garver identified that the final design phase will become three individual design deliverables that will be bid out and constructed in their respective year. The multi-phase approach is outside of Garver's scope of work and therefore requires additional services for design (\$174,370.00- modify design into three bid packages), bidding (\$21,400.00 -three bid packages) and construction administrative services (\$218,680.00 -extended time services) totaling \$414,450.00.

Or original contract was awarded 2.5 years ago in order to work with the FAA on receiving discretionary and supplemental funding (goal was to have a shovel ready design). Per article IV paragraph 4.2 of their agreement allows the City and Consultant to renegotiate remaining fees due to the lapse in time; the hourly rates will be increased by 7.8%.

DEPARTMENT HEAD:

Yvette Hernandez, City Engineer

PRIOR COUNCIL ACTION:

March 2, 2021 original agreement for professional services awarded

RESOLUTION

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF EL PASO:

That the City Manager is authorized to sign a First Amendment to an Agreement for Professional Services ("Agreement") by and between the City of El Paso and Garver, LLC, for a Project known as El Paso International Airport Five Node Intersection Remediation," to amend the Agreement to revise the Scope of Services and to include additional services for design and construction administration. The revisions of this First Amendment require Owner to pay Consultant for additional services in an additional amount of \$414,450.00, thereby extending the contract amount from \$911,150.00 to \$1,325,600.00.

That the City Manager is authorized to establish the funding sources and make any budget transfers and execute any and all documents and contract necessary to carry out the intent of the First Amendment.

DAMOE

ADDDOVED THIS

THE STATE OF TEXAS)	FIRST AMENDMENT
)	AGREEMENT
COUNTY OF EL PASO)	FOR PROFESSIONAL SERVICES

This First Amendment to an Agreement for Professional Services ("First Amendment") is made this _____ day of _____, 2023 ("Effective Date"), by and between the City of El Paso, a Texas municipal corporation (the "*Owner*"), and Garver, LLC, (the "*Consultant*").

WHEREAS, on March 2, 2021, the Owner entered into an Agreement for Professional Services (the "*Agreement*") with the Consultant for a Project known as "El Paso International Airport Five Node Intersection Remediation" (the "*Project*"); and

WHEREAS, originally, the parties planned for the Project to be designed and constructed as one project; and

WHEREAS, pursuant to recent direction provided by the FAA, the parties must divide the Project into three stages, with three designs to be constructed over three fiscal years; and

WHEREAS, the parties desire to amend the Agreement to revise the Scope of Services in accordance with FAA direction and to include additional services for design and construction administration necessitated by FAA direction; and

WHEREAS, the revisions of this First Amendment require Owner to pay Consultant for additional services in an additional amount of \$414,450.00, thereby extending the contract amount from \$911,150.00 to \$1,325,600.00.

NOW THEREFORE, in consideration of the mutual promises set forth in this First Amendment and for other good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, the parties agree as follows:

- 1. The Agreement is amended to revise the Scope of Services by deleting Attachment "A" in the Agreement, in its entirety, and replacing it with Attachment "A-1", as provided in this First Amendment.
- 2. The Agreement is amended to revise the hourly rates by deleting Attachment "B" in the Agreement, its entirety, and replacing it with Attachment "B-1", as provided in this First Amendment.
- 3. Owner and Consultant acknowledge and agree that, as of the Effective Date of this First Amendment, Owner has paid Consultant an amount of \$544,509.36 for work completed pursuant to the parties' original Agreement.
- 4. Section 3.1 (Payment to the Consultant) of the Agreement is amended to read as follows:

3.1 PAYMENT TO CONSULTANT. The Owner shall pay to the Consultant an amount not to exceed \$1,325,600.00 for all basic services and reimbursable performed pursuant to this Agreement.

The City Engineer may, without further authorization from the City Council and in a form approved by the City Attorney, increase the total payment identified for all basic services and reimburseables performed pursuant to this Agreement in an amount not to exceed \$50,000.00, if such services are necessary for proper execution of the Project and the increased amounts are within the appropriate budget identified for the identified Project.

In addition, if authorized in advance by the City Engineer, in a form approved by the City Attorney, the Consultant may perform such Additional Services as also enumerated within Attachment "C" in an amount not to exceed \$50,000.00, if such services are necessary for proper execution of the identified Project and the increased amounts are within the appropriate budget identified for the identified Project. Additional Services exceeding \$50,000.00 must have approval by City Council through written amendment to this Agreement.

The Parties acknowledge and agree that, on June 23, 2021, the City Engineer authorized Additional Services in the amount of \$8,925.00 pursuant to the authority granted through this Section 3.1. Further, the Parties acknowledge and agree that said \$8,925.00 is hereby deducted from the \$50,000.00 the City Engineer was permitted to authorize without City Council approval, leaving \$41,075.00 available for Additional Services that may be approved by the City Engineer, without City Council approval, pursuant to this Section 3.1.

The parties agree and understand that all fees and compensation to the Consultant shall only become due and payable in accordance with the terms of this Agreement and the fees to be charged for the Project shall be pursuant to the Consultant's fee proposal for such Basic Services at the rates attached hereto as Attachment "B-1".

5. All terms and conditions of the Agreement except as herein revised, shall remain in full force and effect.

ATTACHMENT "A1" ADDITIONAL SCOPE OF SERVICES

APPENDIX A (SCOPE OF SERVICES)

Generally, the Scope of Services includes the following professional services for improvements to the Five Node Intersection Remediation at El Paso International Airport. Improvements will consist primarily of reconfiguration of the existing TW D, F, G, H, and extended RW 8R pavement as shown in Exhibit 1. While working through the design process, a funding schedule was identified that was best supported by separating the project into three packages; Stage I, Stage II, and Stage III. Stage I will be bid in summer of 2024. Stage II will be bid in summer of 2025. Stage III will be bid in summer of 2026. Stage II and Stage III will be brought to 100% design package and shelved until ready to bid for construction. Bidding and construction phase services are included in the scope of services for Stage II and III.

Effective from this amendment, the professional services will include:

- Revised Design Services
 - 90%/100% Final Design Stage I FY 2024
 - o 90%/100% Final Design Stage II– **FY 2025**
 - o 90%/100% Final Design Stage III– **FY 2026**
- Bidding Services Stage I To be performed under previous agreement FY 2024
- Bidding Services Stage II FY 2025
- Bidding Services Stage III FY 2026
- Construction Administration Services Stage I To be performed under previous agreement
 FY 2025
- Construction Administration Services Stage II– FY 2026
- Construction Administration Services Stage III- FY 2027

A.1 Geotechnical Services

Completed under Original Agreement

A.2 Surveying Services

A.2.1 Design Surveys

Completed under Original Agreement

A.2.2 Property Surveys

Not Applicable

A.2.3 Easement Development

Not Applicable

A.3 Design Services

A.3.1 General

Garver will prepare detailed construction drawings, specifications, instructions to bidders, and general provisions and special provisions, all based on guides furnished to Garver by the Owner and FAA, or

internally developed by Garver. Contract Documents (Plans, Specifications, and Estimates) will be prepared for award of *three (3) construction contracts*. These designs shall conform to the standards of practice ordinarily used by members of GARVER's profession practicing under similar conditions and shall be submitted to the FAA office from which approval must be obtained.

A.3.2 Owner / Agency Coordination

Garver's project manager and/or design team will coordinate with the Owner as necessary to coordinate design decisions, site visits, document procurement, or other design needs.

A.3.2.1 Modifications to Standard

Garver will develop a modification to standard (MOS) for FAA standard specifications as required. Garver will prepare the necessary MOS documentation for submission to the FAA through the Airport Data and Information Portal (ADIP). Documentation will include details of the defined standard, why the standard cannot be met, viable alternatives, and any necessary restrictions associated with the MOS.

A.3.2.2 Separate Procurement for Special Systems

Garver will assist with the development of separate procurement documents required by the AIP Handbook including such duties as assembling initial scope of work, equipment procurement requirements, design reviews, cost estimating, and reviewing the manufacturers/system installers invoices and scope of work documents to support the project. This work includes the required correspondence duties with the FAA ADO and PM as outlined in the AIP Handbook.

A.3.3 Quality Control

Garver will develop a project specific quality control plan. The quality control plan will include the project background and scope, stakeholder contact information, project team and roles, design criteria, project schedule, and quality control procedures.

Garver will complete a quality control review prior to any design submission to Owner and/or FAA. QC reviews will be completed by a senior construction observer and project manager. Weekly internal progress meetings will be held during all design phases to ensure adequate quality control throughout the design phases.

A.3.4 Environmental Coordination

Garver will develop a Stormwater Pollution Prevention Plan (SWPPP), including erosion control plans and details. Prior to construction, the contractor will submit the SWPPP and NOI shall be submitted to the Texas Commission of Environmental Quality (TCEQ) for permitting.

Garver understands that a CATEX has been completed and approved for this project.

A.3.5 <u>Construction Safety and Phasing Plan</u>

Garver will develop a construction safety and phasing plan (CSPP) for the project. During development of the CSPP, Garver will hold a meeting with Airport staff and other stakeholders at the Airport's request to obtain feedback regarding operations during each proposed phase of construction.

After receiving comments from the meeting, Garver will develop a preliminary CSPP for the Owner's review prior to submission to the FAA. After incorporating Owner comments, the CSPP will be submitted to FAA for review through the OE/AAA website.

A.3.6 <u>Existing Conditions Review</u>

A.3.6.1 Record Document Review

Garver will review record document data from the vicinity of the construction site to evaluate existing conditions. Record document data may include record drawings, record surveys, utility maps, GIS data, and previous design reports.

A.3.6.2 Site Visits

Garver's civil and electrical engineers will perform up to two (2) site visits to the project site to review existing conditions and evaluate survey and record document data.

A.3.7 Geometric Design

Garver will provide geometric design in accordance with FAA AC 150/5300-13 (latest edition) or other local standards.

A.3.8 Modeling

Garver will develop preliminary vertical alignments based on the requirements of FAA AC 150/5300-13 (latest edition). Upon the completion of vertical alignments, assemblies will be developed based on the pavement design and corridors will be modeled for each taxiway and apron alignment. Modeling will include all surface changes from centerline of corridor to tie into existing grade for the project site. At the completion of individual corridor developments, all corridors will be combined into a final grading surface. Modeling will be an iterative process to determine the most efficient design solution.

A.3.9 Grading and Drainage

Grading and drainage design shall be completed in accordance with FAA AC 150/5300-13 (Airport Design), FAA AC 150-5320-5 (Airport Drainage Design), and applicable local drainage codes.

A.3.10 <u>Airfield Electrical</u>

A.3.10.1 Airfield Lighting and Signage

Garver will provide electrical engineering services to design the new lighting improvements on the project including but not limited to the following: runway/taxiway edge lighting, guidance signage, electrical vault modifications, and updates to the Airfield Lighting Control and Monitoring System (ALCMS). Updates to the ALCMS layout will be procured outside of the construction contract in order to comply with FAA procurement protocol.

A.3.10.2 NAVAIDS

Not Applicable

A.3.11 <u>Utility Design and Coordination</u>

Not Applicable

A.3.12 Specifications and Contract Documents

A.3.12.1 Technical Specifications

Detailed specifications shall be developed using FAA "Standards for Specifying Construction for Airports" AC 150/5370-10 (latest edition) or other appropriate standards approved for use by the FAA. Additional supplementary specifications will be developed for project requirements not covered by FAA AC150/5370-10 or when state or local standards are approved by the FAA.

A.3.12.2 Construction Contract Documents

Garver will provide proposal forms, instruction to bidders, general conditions, special conditions, and technical specifications for incorporation into City of El Paso Standard Contract. A specimen copy of the General Provisions and applicable prevailing wage rates will be obtained by Garver from the FAA and/or Department of Labor as appropriate for incorporation into the specifications for the proposed project. Final construction contract documents will be submitted to the Owner for final review and approval.

A.3.13 Quantities and Engineer's Opinion of Probable Cost.

Garver will develop detailed quantities in PDF format for use in construction cost estimating for each design phase. Quantities will be completed by pay item. Upon the completion of quantity development, Garver will review previous cost data and market conditions and complete an Engineer's Opinion of Probable Cost.

A.3.14 Design Services Submission and Meeting Summary

The following design submittal phases shall be included in the fee summary. A summary of each design phase and the associated review meetings is included below.

A.3.14.1 90% Final Design

Garver will develop 90% final design plans, specifications, and engineer's report and submit these to the Owner for review. It is anticipated that the Owner will review the design submission within one week.

At the completion of the Owner review period, Garver will meet with the Owner to review the 90% final design plans, specifications, and engineer's report and to receive Owner comments and direction.

A.3.14.2 100% Issued for Bid (IFB)

Garver will develop 100% IFB plans and specifications and submit these to the Owner for review. It is anticipated that the Owner will review the IFB submission within one week.

A.4 Bidding Services

Garver will assist the negotiating proposals for two prime contracts for construction, materials, equipment and services; and, where applicable, and attend a pre-bid conference. The Owner will pay advertising costs outside of this contract.

Garver will issue addenda as appropriate to interpret, clarify or expand the Bidding Documents. Garver will consult with and advise the Owner as to the acceptability of subcontractors, suppliers and other persons and organizations proposed by the prime contractor(s) (herein called "Contractor(s)") for those portions of the work as to which such acceptability is required by the Bidding Documents. Garver will consult with the Owner concerning and determine the acceptability of substitute materials and equipment proposed by Contractor(s) when substitution prior to the award of contracts is allowed by the Bidding Documents.

Garver will prepare a bid tabulation and assist the Owner in evaluating bids or proposals and in assembling and awarding contracts for construction, materials, equipment, and services. Garver will assist the Owner in the execution of all contract documents and furnish a sufficient number of executed documents for the Owner, Contractor and FAA.

A.5 Construction Administration Services

During the construction phase of work, Garver will accomplish the tasks below.

A.5.1 Issued for Construction (IFC) Documents

Garver will compile bid addendums and any other necessary plan changes due to post-bid project updates and/or funding changes into a final Issued for Construction (IFC) set of plans and specifications.

A.5.2 <u>Construction Management Plan</u>

Garver will prepare a "Construction Management Plan" to be submitted to the Federal Aviation Administration (FAA) for approval. At a minimum, the plan shall list key construction personnel, qualifications of construction management personnel, and materials quality assurance information. The plan will be reviewed by the FAA project manager and must be approved along with the final plans and specifications for construction.

A.5.3 Submittals

Garver will evaluate and respond to construction material submittals and shop drawings. Corrections or comments made by Garver on the shop drawings during this review will not relieve Contractor from compliance with requirements of the drawings and specifications. The check will be for review of general conformance with the design concept of the project and general compliance with the information given in the contract documents. The Contractor will be responsible for confirming and correlating all quantities and dimensions, selecting fabrication processes and techniques of construction, coordinating his work with that of all other trades, and performing his work in a safe and satisfactory manner. Garver's review shall not constitute approval of safety precautions or constitute approval of construction means, methods, techniques, sequences, procedures, or assembly of various components. When certification of performance characteristics of materials, systems or equipment is required by the Contract Documents, either directly or implied for a complete and workable system, Garver shall be entitled to rely upon such submittal or implied certification to establish that the materials, systems or equipment will meet the performance criteria required by the Contract Documents.

A.5.4 Preconstruction Meeting

Garver will attend preconstruction meetings for each project. One meeting was covered in the orgig

A.5.5 Progress Meetings

As a minimum, Garver's Project Manager will attend weekly teleconference progress meetings with the Owner and Contractor and monthly site visits. It is expected that meetings will be held on-site and meetings will be held via conference call as listed within the respective fee breakdown. To the extent possible, progress meetings and visits to the site of the work should be scheduled to coincide with each new phase of construction, scheduled FAA inspections, and other times when Garver's presence is desirable. Garver's project engineer or his qualified representative will be available at all times work is in progress for telephone contact by the RPR. Garver's project engineer shall direct, supervise, advise, and counsel the Resident Project Representative and construction observation personnel in the accomplishment of Garver's duties. Garver will prepare for and attend any utility pre-construction meetings as required.

A.5.6 Owner Coordination

Garver will consult with and advise the Owner during the construction period. Garver will submit, when requested by the Owner, written reports to the Owner on the progress of the construction including any problem areas that have developed or are anticipated to develop.

A.5.7 RFIs

Garver will issue instructions to the Contractor on behalf of the Owner and issue necessary clarifications (respond to RFIs) regarding the construction contract documents.

A.5.8 Progress Payments

Not Applicable

A.5.9 Payroll Reviews

Not Applicable

A.5.10 DBE Compliance

Not Applicable

A.5.11 Record Drawings

Garver will maintain a set of working drawings and provide information for preparation of record drawings of the completed project. This information will be incorporated into final record drawings completed as part of Closeout Services (Closeout Services to be provided by others) and final record drawings will be provided to the Owner after project completion.

A.5.12 Change Orders

When <u>authorized by the Owner</u>, Garver will prepare change orders or supplemental agreements for changes in the work from that originally provided for in the construction contract documents. If redesign or substantial engineering or surveying is required in the preparation of these change order documents, the Owner will pay Garver an additional fee to be agreed upon by the Owner and Garver.

A.5.13 Final Inspection

Garver will participate in a pre-final walkthrough with the Owner. Garver will also participate in a final project inspection with the Owner and Contractor, prepare a punch list, review final project closeout documents, and submit the final pay request.

A.6 On-Site Resident Project Representative Services

Not Applicable

A.7 Materials Testing Services

Not Applicable

A.8 Project Closeout Services

Not Applicable

A.9 Project Deliverables

The following deliverables will be submitted to the parties identified below. Unless otherwise noted below, all deliverables shall be electronic.

- 1. 90% Final Design Plans, Specifications, and Report to the Owner.
 - a. Ten hard copies to Owner
- 2. 100% Issued for Bid Plans, Specifications, and Report to the Owner.
 - a. Three hard copies to the Owner for approval
 - b. Ten hard copies to Owner
- 3. Issued for Construction Plans and Specifications to the Owner.
 - a. One hard copy of all addenda.
- 4. Construction Management Plan to the Owner and FAA
- 5. Approved submittals to the Contractor.
- 6. Record Plans and Specifications to the Owner and FAA.
 - a. One hard copy to the Owner.
- 7. Other electronic files as requested.

A.10 Additional Services

The following items are not included under this agreement but will be considered as additional services to be added under Amendment if requested by the Owner.

- 1. Redesign for the Owner's convenience or due to changed conditions after previous alternate direction and/or approval.
- 2. Front end specifications and construction contract. Garver will provide proposal forms, instruction to bidders, general conditions, special conditions, and technical specifications for incorporation into City of El Paso Standard Contract.
- 3. Deliverables beyond those listed herein.
- 4. Design of any utility relocation.
- 5. Utility Relocation will be identified during the Preliminary Design Phase. If utility relocation is required for the preferred alternative, additional services will be required.
- 6. Utility Easement Development
- 7. Engineering, architectural, or other professional services beyond those listed herein.
- 8. Retaining walls or other significant structural design.
- 9. Preparation of a Storm Water Pollution Prevention Plan (SWPPP). The construction contract documents will require the Contractor to prepare, maintain, and submit a SWPPP to TCEQ.
- 10. Attendance of Bid Opening.
- 11. On-Site Construction Observation, Construction Materials Testing, and Project Closeout Services.

- 12. Environmental Handling and Documentation, including wetlands identification or mitigation plans or other work related to environmentally or historically (culturally) significant items.
- 13. Coordination with FEMA and preparation/submittal of a CLOMR and/or LOMR.
- 14. Services after construction, such as warranty follow-up, operations support, and Part 139 inspection support.
- 15. Utility Record Drawings developed for Franchise Utilities.
- 16. Project Construction Staking and Layout
- 17. Reimbursable Agreement will be coordinated with FAA by the Owner.
- 18. The owner will prepare and submit the 7460 through OE/AAA and coordinate with FAA. Garver will supply point locations as requested.
- 19. Review of the Construction Contractor's Progress Payment, Payroll Reviews, and DBE Compliance will be handled by the Construction Manager.

A.11 Schedule

Garver shall begin work under this Agreement upon execution of this Agreement and shall complete the work to align with the schedule identified in this document. The anticipated design for Stage I, Stage II and Stage III is anticipated to be completed to 100% March 2024.
