

June 18, 2025

This happened on June 18, 2025 at  
Jessie Moreno Senior Center. The  
Center was given ~~more~~ activities to do.  
I was sitting doing my project,  
when Irene pushed her Right  
arm, next to me (left side) & wanted  
to get some items I was working  
on; she did not even ask if she  
could get the items, as ~~can~~<sup>am</sup> I using  
them. Nothing, she just pushed her  
right arm, almost hitting my left  
~~eye~~ eye, & striking my left side  
where I had a Mastectomy! I  
immediately said "No, I'm still  
using the items, & you didn't even  
ask if you ~~could~~ could get them."  
As she took her right arm back, she  
did hit my left side. She just turned  
& left. I want to put a complaint on  
her for acting that way!
