Project Summary :

Briefly summarize the project, including proposed activities and intended impact.

The El Paso Police Department (EPPD) seeks grant funding for continued support of the West Texas Anti-Gang Center (TAG). The TAG is centrally located in the city of El Paso and is equipped with technology that supports law enforcement officers in their investigations of criminal gang related crimes. The TAG Center enables participating law enforcement agencies to efficiently and effectively collaborate on intelligence, investigations, and operational activities related to combating gangs and other criminal organizations operating in or affecting the region. El Paso County's proximity to Mexico and bordering states makes it a key location for organized crime to conduct operations. According to the United States Census Bureau (2022), El Paso County is approximately 1,013 square miles with a population of 974,000. The City of El Paso, with an estimated population of 687,722, is the largest of seven incorporated communities in the County of El Paso and the sixth largest city in Texas. El Paso County's numerous international ports of entry, airports, interstate rail, and highway infrastructure make the area a hub of transportation and global trade, and a key operational stronghold for criminal organizations when it comes to the importation and distribution of drugs and contraband as well as human trafficking. El Paso-Las Cruces-Juarez make up the largest border city in the world. El Paso is also the home of the U.S. Army Fort Bliss, consisting of 1875 square miles, with a population during FY-2022 of more than 90,000 service members and their families. DPS has identified El Paso as having the largest number of gang members in the West Region, which includes the El Paso/ Las Cruces area, Odessa, Midland and San Angelo with a combined Metropolitan Statistical Area population of 1.5 million. The most current DPS Gang Threat Assessment reassures us that there continues to be street gangs, prison gangs, and outlaw motorcycle gangs in the El Paso area. Participating agencies at the TAG will work jointly to make the community safer from the violent threat posed by gangs and other violent criminal organizations. Due to the increased gang activity TAG's personnel is growing as is the need to expand into an existing second floor and addition to the northside of the facility has been planned.

Problem Statement :

Provide a detailed account of the issues, threats or hazards that your project will target. For federal Homeland Security Grants, include specific references to the regional or state *Threat and Hazard Identification and Risk Assessment (THIRA)*, as applicable.

The diverse nature of organized crime in the El Paso metropolitan and borderplex area includes local street gangs, outlaw motorcycle organizations (OMO), drug trafficking, and transnational criminal organizations (TCO). These groups exploit the proximity of the border, the numerous ports of entry, railways, the interstate highway system, and bordering states to further their efforts in extortion, the trafficking of drugs, contraband, weapons, and humans, and a variety of other crimes, all of which pose a serious threat to the community. According to the EPPD Gang Unit, as of December 2022, the most prominent and active criminal organizations and gangs are Moon City Locos, Gangster Disciples, Chuco Tango, Sureños, and Barrio Azteca. Intelligence from El Paso area law enforcement reported that the Mongols and Pagans remain the most active outlaw motorcycle gangs and the offenses are usually assault related or weapons possession. Intelligence indicates that the Pagans OMO have formed a Southwest chapter in El Paso, TX. Drug trafficking organizations and transnational criminal organizations are also active in the El Paso region. HSI and DEA agree that during FY-2022 notorious criminal groups identified as operating are the Sinaloa Cartel, La Linea (Juarez

Cartel), Jalisco New Generation Cartel (CJNG), and La Nueva Empresa. These organizations affiliate with local criminal gangs in virtually every type of criminal activity. They are involved in human trafficking, drug trafficking, extortion, home invasion, metal and heavy equipment theft, major fraud, money laundering, bulk cash smuggling, kidnapping, and murder for hire. Just as drugs and humans are being smuggled into the country; currency, stolen property and weapons are being smuggled into Mexico for the cartels. El Paso area gangs have also taken part in murder, kidnapping, money laundering, fraud, organized retail thefts, home invasions, robberies, burglaries, prostitution of adults/minors, illegal gambling operations, and drug dealing. Transnational criminal organization work hand in hand with local gangs using better intelligence, advanced technology, and stronger organizational practices in the pursuit of furthering their profits. In 2022, El Paso became the epicenter of the migrant crisis along the U.S.-Texas-Mexico border with 2.4 million migrant encounters. The TAG has been assisting in identifying gang affiliated migrants. One gang that has been identified through migrant encounters is Tren De Aragua out of Venezuela and is equivalent to the MS-13 in scope of violence and criminal activity.

Existing Capability Levels :

Describe the existing capability levels, including resources that are currently in place to support this project prior to the use of grant funds.

The existing capabilities are: EPPD gang unit; Alcohol, Tobacco, Firearms, and Explosives; FBI Safe Streets Violent Gang Task Force; DPS, gang units and human trafficking unit and intelligence unit; HSI/DEA West Texas Anti-Gang Task Force; El Paso County Sheriff's Office and other local, state, and federal law enforcement agencies, along with the 34th Judicial District Attorney's and the U.S. Attorney's Office Western District of Texas have individually addressed criminal gang, OMO, and TCO activity in the greater El Paso area, but not with a unified coordinated law enforcement effort, until the funding provided by the Office of the Governor for the TAG Center. Funding from this grant will allow for the continued operation of the TAG center as described in other sections of this proposal. TAG utilizes a CJIS compliant intelligence and information platform known as SMARTFORCE in the furtherance of collaborating and sharing information on multi-agency/multi-jurisdictional gang investigations. In addition, TAG maintains a website that allows the community to provide real-time tips regarding gang activity in the region. The TAG will continue to collaborate with the Texas Gang Investigators Association (TGIA) to co-host gang related training in the region. The TAG will provide a facility in the El Paso area for law enforcement agencies to conduct meetings and as a location for training. The TAG will continue the established relationship with the Texas Violent Gang Task Force (TVGTF) by promoting interagency collaboration with the common goals of prevention, intervention, suppression, and prosecution of criminal gang activity. The TAG will continue to foster a relationship with agencies in the region to assist with deterring teenagers and young adults from joining gangs and criminal organizations and will work with those agencies tasked with monitoring criminal juvenile activity, such as the El Paso County Juvenile Probation Department. Through alliances with the Texas Alcohol Beverage Control (TABC) and the El Paso County Attorney's Office, the TAG will make efforts to have businesses that support criminal gang activity have their licenses suspended and civil fines imposed. Working with law enforcement counterparts with the US Army, participants at the TAG will seek to utilize the military's Uniformed Code of Military Justice as another tool to combat criminal gang activity influencing the region. The TAG will continue to work with the West Texas HIDTA to foster the sharing of gang related intelligence. An Executive Board composed of executive staff from the constituent law enforcement agencies will manage the overall operations of the TAG. The TAG Administrator will administer the TAG facility, facility operations, and collaborative efforts. Individual constituent and participating agency supervisors will direct investigations and enforcement operations.

Capability Gaps:

Describe the capability gaps which will be addressed by the project. For federal Homeland Security Grants, include specific references to the regional or statewide State Preparedness Report (SPR).

Due to the steady gang activity in the region, personnel and operational needs have increased. According to the EPPD gang unit the most prominent and active criminal organizations and gangs active in the greater El Paso include the Moon City Locos, Gangster Disciples, Chuco Tango, Sureños, and Barrio Azteca. Area law enforcement agree OMOs are also active in the area conducting various crimes. During 2020-2021 DEA and HSI concur TCOs operating in the El Paso region are Sinaloa Cartel, La Linea Cartel, Jalisco New Generation Cartel (CJNG), La Nueva Empresa, and Mexicles. Intelligence supports the belief that TCO gang members operating in El Paso, Tx coordinate the transportation of undocumented immigrants from Mexico to the United States. Intelligence provides that drugs are smuggled at the same time with the undocumented immigrants. It is suspected that this tactic is used to exploit immigrants entering the U.S. from Mexico. The goal of the TAG is to enhance law enforcement operations targeted at violent criminal gangs and other gang related criminal organizations and facilitators by co-locating representatives from federal, state, and local law enforcement agencies in a single dedicated facility. Serves as a resource to area law enforcement agencies to address current and emerging gang issues across the West Texas area. TAG strategic goals include fighting violent criminal gangs with a focus on preliminary on-scene and long-term investigations, suppression, and accurate and timely intelligence, increased interagency cooperation/collaboration, the inter-connection of law enforcement agencies at a regional and statewide level in order to become a "force-multiplier", rapid deployment of personnel and resources, use effective tactics and best practices that are flexible and adaptable to violent crime trends, follow-up and assess, and prevention through community outreach. The TAG is centrally located in a 20,000 square foot building equipped with advanced technology. Co-locating participating agencies will ensure agencies have access to information on a timely manner, create force multipliers, and concentrate operations. This allows the participating law enforcement agencies to split their focus among multiple priorities on a routine basis, while permitting flexible surges during moments of crisis or operational need. The TAG will enable the participating law enforcement agencies to more efficiently cooperate and

collaborate on intelligence, investigations, and operational activities related to combating gangs and other criminal organizations operating in or affecting the region. The El Paso Police Department; Texas Department of Public Safety; El Paso County Sheriff's Office; Federal Bureau of Investigation; Alcohol, Tobacco, Firearms, and Explosives; 34th Judicial District Attorney's Office; Homeland Security Investigations; U.S. Attorney's Office Western District of Texas, and the Drug Enforcement Administration comprise the constituent agencies. Participating with the constituent agencies are local, state and federal law enforcement agencies. Participation of both law enforcement agencies and personnel continues to increase at the TAG.

Impact Statement :

Describe the project goals/objectives and how this project will maintain capabilities or reduce capability gaps. The TAG will co-locate officers and investigators from federal, state and local law enforcement agencies to gather intelligence, analyze the intelligence, and in turn act accordingly and disseminate the information on timely manner to area law enforcement. The intelligence gathered by the participating agencies at the TAG will be utilized to tactically disrupt the on-going criminal activities of the gangs operating in the El Paso County and other areas of the region. The goal as stated above will have an objective to reduce and or eliminate criminal gang activity and violence associated with gangs in the region. To monitor the effectiveness of the TAG, data will be collected and reported as required by the Office the Governor (OOG) using indicator output measures: 1. Number of gang members arrested for felony offenses, 2. Number of gangs targeted, 3. Number of weapons seized, 4. Number of gang members arrested for misdemeanor offenses, and 5. The number of participating agencies at the TAG. The following outcome measures will be reported and required by the OOG-CID: 1. The number of gang member convictions.

Homeland Security Priority Actions:

Identify the Texas Homeland Security Priority Action most closely aligned with this project. Each Priority Action is linked with an *Objective from the Texas Homeland Security Strategic Plan (HSSP)*. List the Priority Action by number and text (e.g. 1.2.3 Expand and enhance the network of human sources that can provide detailed and relevant information on known or suspected terrorist and criminal enterprises.)

1.2.2 Establish and enhance multi-agency anti-gang centers in regions throughout the state to integrate and enhance the efforts of law enforcement agencies to identify, deter, disrupt, and dismantle criminal organizations.

Target Group :

Identify the target group and population expected to benefit from this project.

The counties of El Paso, Hudspeth, Culberson, Reeves, Jeff Davis, Presidio, Brewster, Pecos, Terrell, Loving, Winkler, Ward, Ector, Crane, Midland, Upton, Glasscock, Reagan, Crockett, Sterling, Irion, Coke, Tom Green, Schleicher, Sutton, Concho, Menard, Kimble, McCulloch, Mason, Gaines, Andrews, Dawson, Martin, Borden, and Howard will be the TAG's target group.

Long-Term Approach:

Describe how the applicant agency will maintain the capabilities supported by this project without additional federal or state funds. If sustainment is dependent upon federal or state grants, describe the ongoing need for future grants, as applicable.

Without the continued funding from the Office of the Governor it would not be possible to maintain the TAG facility as it currently exists therefore rendering the West Texas TAG Center inoperable.
