Dear Mayor Johnson and Members of the El Paso City Council,

On behalf of the *Friends of Sunset Heights Neighborhood Association*, we are writing to express our overwhelming support in the lifting of parking minimums. We hope that this will facilitate new development in the city center, increase walkability, and reduce heat producing blacktop parking.

At this time, we do not support the AUD proposal in its current form due to issues regarding safety and code enforcement. We look forward to working with the City in helping craft a policy to best implement an AUD policy that will meet the needs of affordable housing, safety, and density in our beautiful city.

Thank you for your time and consideration.

Sincerely,

Daniel Rubio
