Discussion and action to direct the City Manager to identify budget adjustments to reduce the property tax rate for the next fiscal year 2024, such as but not limited to; no new revenue or by reducing four cents per \$100.00 of property value to further ease the burden on the taxpayers and while still maintaining a high level of all City services and present the recommendations at the first proposed budget meeting.

BACKGROUND / DISCUSSION:

Discussion of the what, why, where, when, and how to enable Council to have reasonably complete description of the contemplated action. This should include attachment of bid tabulation, or ordinance or resolution if appropriate. What are the benefits to the City of this action? What are the citizen concerns?

In the last several fiscal years, the City Council has held the line on taxes. For the years 2020 and 2021, the City Council adopted the same tax rate, meaning that there was no tax rate increase during that time. Specifically, the Council adopted budgets without an increase in the property tax rate.

On April 26, 2022 the City Council unanimously voted to direct the City Manager to develop a FY 2023 Budget with a reduction in the property tax rate, while not impacting the delivery of services to the community, in order to minimize the financial impact on taxpayers.

The City only makes up 29% of the overall property tax bill, it is critical that the Council is proactive by exploring all potential budget adjustments in an effort to ease the burden on our taxpayers.
