Section 6.13-11D PENSION PLANS.

Firemen and Policemen Pension Fund of El Paso. The City shall continue to augment the Firemen and Policemen Pension Fund of El Paso in a manner consistent with the laws of Texas. To augment the Firemen and Policemen Pension Fund, the Council shall in each fiscal year beginning after May 2023, appropriate no less than eighteen percent of the total amount expended for wages of the participants, and may increase this contribution rate as allowed by the relevant state law requirements based on a qualified actuary's report; provided, however, that in the event age limits for participation in the pension fund, or any division of the fund, are increased as permitted by law and the raising of the age limits causes an increase in funding costs as determined by an actuary, the City shall appropriate an amount equal to such cost increase notwithstanding that such increased appropriation may exceed the otherwise

determined percent of the total amount expended for wages of the participants. Notwithstanding the foregoing, if the City elects to pick up participant contributions to the Firemen and Policemen Pension Fund of El Paso under Section 414(h) of the Internal Revenue Code of 1986, as amended (the "Code"), then the participant contributions picked up by the City shall be derived from a corresponding reduction in participant cash salaries and treated as a contribution by the City solely for determining tax treatment of such contributions under the Code. The picked up contributions by the City shall not be considered a contribution or required contribution by the City for any other purpose, including the limitations for the total amount expended for salaries of the participants designated in this Section 6.13-11.D. Notwithstanding the foregoing, the City shall have the authority to contract with the Firemen and Policemen Pension Fund to make a one-time contribution (either in lump sum or installments) to the Firemen and Policemen Pension Fund solely for an underfunded liability as of December 31, 2003 or the date of contribution, under such conditions as the City in its sole discretion may require and provided that (a) such authority, action and/or contribution complies with the Firemen and Policemen Pension Fund plan documents and all applicable statutes, laws, rules and regulations, and (b) a binding written agreement between the City and the Firemen and Policemen Pension Fund has been reached regarding (i) the amount of such under-funded liability, if any, (ii) the amount to be contributed by the City for such under-funded liability, and (iii) procedures (including, if necessary, amendments to the Firemen and Policemen Pension Fund plan documents) for managing the Firemen and Policemen Pension Fund on a going forward basis.

RESOLUTION

WHEREAS, the use of opioids, such as hydrocodone, oxycodone, Fentanyl, carfentanyl, tramadol, methadone, and heroin can be fatal or cause severe side effects; and

WHEREAS, from April 2020 to April 2021 the U.S. Centers of Disease for Control and Prevention reported 100,000 Americans have died of opioid-related causes, resulting in a 28 percent increase from the year before; and

WHEREAS, El Paso County has experienced an upward trend of drug overdose deaths, particularly those resulting from opioids, and the years 2020 to 2021 saw a 126 percent increase from 128 acute drug toxicity deaths in 2020 to 162 deaths in 2021; and

WHEREAS, this year the El Paso County Medical Examiner released the “El Paso County Medical Examiner Annual Report 2021,” which shows that acute drug toxicity is the number one cause of accidental deaths in El Paso County, ahead of blunt force injuries and drowning; and

WHEREAS, the 2021 report shows that overdose deaths in which Fentanyl was detected rose by 260 percent—from 23 during the pandemic confinement year of 2020 to 60 in 2021; and

WHEREAS, previous studies indicate that it is possible to effectively reduce the impact of opioid use disorder through various approaches, including improved syndromic and disease surveillance, community-based outreach and linguistically accessible public education, expanded access to medically assisted treatment, prescription drug take-back and disposal, use of Fentanyl testing strips, and the increased availability and training on the use of Naloxone; and

WHEREAS, lack of access to safe stable housing for people experiencing homelessness risks the health and safety of residents and makes it harder to access life-saving services; and

WHEREAS, Naloxone, a treatment that reverses the effects of a drug overdose, is not widely accessible for use by community members and social service agencies; and

WHEREAS, El Paso’s Harm Reduction Alliance, comprised of organizations such as Punto de Partida, Project Vida, and the Recovery Alliance of El Paso, have identified a gap in the availability of Medication-Assisted Treatment (MAT) for patients with opioid use disorder (OUD); and

WHEREAS, patients often experienced a seven-to-ten-day delay between choosing to seek treatment and being able to begin treatment in a MAT program; and

WHEREAS, with the delay comes the guarantee of withdrawal symptoms, which can be a deterrent for those trying to get help and an increased risk of overdose and death; and

WHEREAS, earlier this year, the El Paso Police Department, the Fire Department, and

the Public Health's Public Education teams expressed their intent to increase availability and distribution of Naloxone and other drugs that treat overdoses for first responders caring for overdose patients, as well as education related to emergency response to overdose cases, and education and training for overdose patients, families, schools, and the general public; and

WHEREAS, the El Paso Police Department has received over 120 donated doses of nasal administered Naloxone and have an alert notification system advising when a particular batch is 6 months from expiration, which is meant to ensure they have enough in stock to replenish the upcoming doses and distribute them as needed; and

WHEREAS, the El Paso City Council supported the City's participation in both the Johnson & Johnson and Distributor Settlements to allow the City to receive its allocation of settlement funds for use in opioid mitigation measures and to participate in other opioid litigation settlements; and

WHEREAS, the City has received its first annual settlement payment allocations totaling approximately \$384,000, which are intended to be used to provide Naloxone to our community as well as provide training for first responders to be able to administer the medication;

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF EL PASO:

City Council supports the City Manager in current efforts to address the escalating public health crisis caused by drug overdoses and addiction and encourages greater interdepartmental coordination and regional coordination with public safety, healthcare, and service providers, as well as with the El Paso Harm Reduction Alliance and the local mental health consortium to equitably implement harm reduction strategies and promote community health and wellness.

BE IT FURTHER RESOLVED:

The City Manager is directed to invest in harm reduction strategies utilizing the opioid settlement payments to address the overdose crisis, including the following immediate harm reduction strategies:

- Ensure an adequate supply of Naloxone kits are available on all first responder vehicles.
- Increase access to Naloxone and training through City channels other than the Emergency Medical Services or the El Paso Police Department, including but not limited to El Paso Public Health Department, El Paso Public Libraries, El Paso Parks and Recreation, and Sun Metro/Mass Transit vehicles.
- Increase access to Medication-Assisted Treatment (MAT), Naloxone, and support services and operations for community partners focused on harm reduction strategies.
- Work on enhancing partnerships with the El Paso Harm Reduction Alliance and the local mental health consortium, and other local resources, including but not limited to organizations such as Project Vida, Punto de Partida, the Recovery Alliance of El Paso, and Emergence Health Network, to facilitate rapid assessment, screening and referral to harm reduction services, medication-assisted therapy, and behavioral health providers.

Look into creating a City needle exchange program by partnering with other local organizations.

BE IT FURTHER RESOLVED:

The City Manager shall provide a directive to the Public Health Director with the objective to develop a comprehensive local plan of action that develops and prioritizes strategies related to prevention, treatment, and support services for substance use disorders. The Public Health Director should provide biannual reports to Council and include collaboration with harm reduction organizations to identify strategies and action around the following topics:

- Align housing policies to coincide with drug treatment.
- Assess mental and behavioral health access to treatment gaps.
- Assess state and federal grant opportunities for additional funding.
- Evaluate harm reduction strategies and research national best practices.

BE IT FURTHER RESOLVED:

The City Manager is directed to create a data dashboard to provide continuous sharing of overdose high-level data with other City departments and community partners and improve data collection, integration, and dissemination of information, and tracking inpatient and outpatient treatment availability to ensure clients are linked to necessary services. This should incorporate system-track overdoses by El Paso Emergency Services, the El Paso County Medical Examiner's Office, hospital partners, and other relevant software data and provide additional internal or contracted staffing support to implement within one-year.

Data metrics should include, but should not be limited to the following:

- Behavioral health treatment rate for patients with a primary diagnosis of opioid use disorder;
- Doses of Naloxone distributed;
- Doses of Naloxone administered by first responders;
- Fatal overdoses;
- Nonfatal overdoses.

BE IT FURTHER RESOLVED:

The City Manager is directed to create a public education campaign within the next year to warn about the dangers of Fentanyl, mental health stigma, and youth education, including:

- The development and implementation of a public awareness campaign including educational materials that focus on the prevention of drug use, risks of substance use and misuse, and community resources available in treatment, recovery, harm reduction, and safe disposal of unused prescription drugs.
- The development and implementation of an education campaign for health care providers about up-to-date and safe prescribing practices for the treatment of pain and pain management and finding other non-opioid pain management options.
- The development and implementation of an initiative to encourage physicians to refer patients to MAT treatment when an opiate use disorder is suspected or identified.
- Support expansion of street-level interventions, educational outreach, and linking clients to the appropriate prevention, treatment, harm reduction, or recovery programs.
