## **SECTION 2. LICENSE AREA**

The subsurface rights granted herein under a portion of right-of-way along Campbell Street and First Avenue and to include Ochoa Street and Florence Street to maintain and repair fiber optics, communication cables, underground conduit, manholes or other infrastructure and appurtenances are more particularly shown in Exhibits “A & B” which is made a part hereof for all purposes (hereinafter referred to as “License Area”). The cables, underground conduit, manholes or structures and appurtenances are to be installed within the parkway and sidewalk areas whenever feasible to reduce the necessity for pavement cuts and repairs to existing roadways while maintaining the five-foot separation from existing utilities. For the areas necessitating pavement cuts, the repairs and pavement cuts shall comply with the provisions of Chapter 13.04 (Street and Sidewalk Construction and Maintenance) and Chapter 13.08 (Excavations) of the El Paso City Code.

## **SECTION 3. PURPOSE**

The only City right-of-way Grantee shall use pursuant to this License shall be License Area shown for the maintenance of the wires, cables, underground conduit described in Exhibits A and B attached hereto. Any use of the License Area other than in connection with the construction, use, maintenance, reconstruction, or modification of the existing fiber optics, communication cables, underground conduits, manholes or other structures and appurtenances is not authorized by this License. Nothing herein shall grant any real property interest to the Grantee nor give rise to any vested right in the Grantee, his assigns or successors in interest, none of whom shall have a cause of action for damages upon revocation or termination of this License in accordance with the terms herein.

This License shall not permit or be construed to permit any other private use of the City right-of-way that impairs its function as a City right-of-way. Except as provided herein, Grantee shall not construct any additional improvements, or make any additions or alterations on, above, or below the City right-of-way, without prior written consent of the El Paso City Council.

## **SECTION 4. REGULATION OF CONSTRUCTION**

The work done by Grantee in placing, constructing, replacing, repairing, reconstructing, or maintaining the fiber optics, communication cables, underground conduits, manholes, or other structures and appurtenances shall be subject to and governed by all laws, rules and regulation of the City and State of Texas, Federal Communications Commission, and the U.S. Government that are applicable to the construction of the fiber optics, communication cables, underground conduits, manholes, or other structures and appurtenances. Work done in connection with the construction, repair and maintenance of such facilities is subject to the continuing police power of the City.

In the event that Grantee desires to reconstruct, repair, maintain, or replace the existing fiber optic, communication cables, underground conduits, or other structures and appurtenances built hereunder, Grantee shall obtain all applicable permits required by the City. Where proposed, any excavation or trenching and other construction in the City right-of-way shall be so carried out as to interfere as little as practical with the surface use of the City right-of-way in accordance with any lawful and reasonable direction given by or under the authority of the governing body of the City under the police and regulatory powers necessary to provide for public convenience. After installation of the fiber optic, communication cables, underground conduits, manholes, or other structures and appurtenances, Grantee shall restore the City right-of-way to the same condition as before any such boring, excavation, or trenching and to the reasonable satisfaction of the City, in accordance with applicable City specifications.

Grantee covenants and agrees that Grantee shall, at its own expense, repair all water lines, storm and sanitary sewer lines, service lines and water meters owned by the City that Grantee, its employees, contractors, agents or assigns, damage so that such repair of the water lines, storm and sanitary sewer lines and water meters shall comply with the approval of the City.

For any additional work, the Grantee shall provide a set of complete engineering plans to El Paso Water showing the proposed work along the cable and conduit route for review and approval prior to any construction work, installation, maintenance, repair, and replacement. All existing water, sanitary sewer mains, reclaimed water mains and appurtenant structures located within the vicinity of the proposed fiber optic telecommunication cable and conduit shall be shown on the engineering plans in plan and profile view with dimensions and elevations.

For eight (8) inch diameter and smaller El Paso Water mains, a minimum horizontal distance of six (6) feet from edge of pipe to edge of proposed fiber optic cables is required. For twelve (12) inch diameter and larger El Paso Water mains, a minimum horizontal distance of ten (10) feet from edge of pipe to edge of fiber optic cable is required. The Contractor shall expose all mains with a diameter of 12-inches and greater with a non-destructive method. The exposures shall be conducted at the areas where the proposed conduit will cross the existing main, as well as at areas at the discretion of El Paso Water-PSB.

If crossing El Paso Water mains, a minimum vertical separation of two (2) feet is required between our existing mains and the fiber optic cable.

Warning markers shall be placed to describe the type of lines buried.

The El Paso Water will assist with the location of water and sanitary sewer mains in the field. Please call the TEXAS EXCAVATION SAFETY SYSTEM (DIG TESS) at 1-800-344-8377 to request the assistance of our Field Engineering Personnel with the location of the City of El Paso's water and

sanitary sewer mains. Please call with at least a 48-hour advance notice to request the field location of the existing water and sanitary sewer mains and appurtenances.

All costs associated with the exposures, repair, relocation, adjustment, or replacement of the City of El Paso's water and sanitary sewer mains and appurtenances are the responsibility of the applicant. In the event of emergencies, Grantee shall contact the El Paso Water field dispatcher.

The City shall have the power at any time to order and require Grantee to remove and abate any portion of the fiber optics, communication cables, underground conduit, manholes, or other structures and appurtenances that is dangerous to life or property. Should Grantee, after notice, fail or refuse to comply within a reasonable time, the City shall have the power to remove or abate same, at the expense of Grantee. In the event City removes or abates the existing fiber optics, communications cables, underground conduits, manholes, or other structures and appurtenances as provided herein, Grantee shall not be compensated for the loss of the existing fiber optics, communication cables, underground conduit, manholes, or other structures and appurtenances, or revenues associated with the cables, nor shall the City be liable to the Grantee for any direct, indirect or consequential damages due to the removal or abatement of the cables.

#### **SECTION 5. TERM**

This Special Privilege shall be for a term of five (5) years from January 31, 2023, unless terminated earlier as provided herein. At the end of this term, the City shall have the unilateral option of renewing this Special Privilege for one (1) additional five (5) year term, under the same term and conditions of this License. The entire term of this License, including options for renewal shall extend beyond ten (10) years. If Grantee wishes the City to renew this License, Grantee shall submit a request in writing to the City no later than three (3) months prior to the expiration date of this License. Should Grantee fail to submit such request for the renewal of this License to the City as herein required, the License shall expire upon the expiration date.
